Table of Contents

Acknowledgements............................................. i
List of Tables.................................................... vii
List of Figures................................................... x
List of Acronyms............................................... xi

Chapter 1  Introduction

1.1  Preamble.................................................. 1
1.2  Past Debates and Established Ideas.................. 2
1.3  Emergence of Agile Methodologies.................... 5
1.4  Agile Software Development: Apprehensions and Proposed Solution.................................................. 11
1.5  Objectives of the Study.................................. 13
1.6  Research Hypotheses.................................... 13
1.7  Scope of the Study...................................... 14
1.8  Research Approach..................................... 15
1.9  Relevance of the Study.................................. 16
1.10 Key Concepts and Definitions.......................... 17
1.11 Roadmap of Thesis...................................... 26
1.12 Beneficiaries of This Work............................. 28

Chapter 2  Review of Literature

2.1  Introduction.............................................. 29
2.2  Agile and its Philosophy................................ 29
2.3  Agile Practices.......................................... 31
2.4  Classification of Agile Methods....................... 32
2.5  Comparative Studies of Agile Methods................ 36
2.6  Knowledge Management.................................. 37
2.7  Epistemological perspectives on KM.................. 38
2.8  Theories of KM.......................................... 39
2.9  KM Models............................................... 42
2.10 Agile Knowledge Management......................... 45
2.11 Agile Knowledge Management Theories................ 47
2.12 Distributed Software Development: A Paradigm Change.................................................. 63
2.13 Distributed Agile Development........................ 65
2.14 Parameter of Applicability of Agile (PAA)........... 72
Chapter 3   Research Methodology

3.1 Introduction 91
3.2 Sample Design 91
3.3 Sampling Frame and Sample Size 93
3.4 Sample Distributions 95
3.5 Measurement Scale 97
3.6 Reliability and Validity 99
3.7 Mapping of the Objectives to the Questionnaire 101
3.8 Web-site Development for the Questionnaire 101
3.9 Collection of Data 102

Chapter 4   Knowledge Management Practices in Indian Software Engineering Industry Working in Agile Domain: An Empirical Assessment

4.1 Introduction 103
4.2 Agile Approach Implimented 103
4.3 Formal Position for Providing Guideline of Agile Practices 104
4.4 KMS and Organizational Setup 106
4.5 Assessing Normality of the Data 107
4.6 Evaluation of Different Aspects of KM Practices 107
4.7 Analysis of KM Practice Adoption Level 110
4.8 KM Practice Level Through organisation Prospective 113
4.9 KM adoption via Organisation Size 114
4.10 KM Adoption via Core Area of Organisation 117
4.11 KM Adoption Level via Team Distribution 120
4.12 KM Adoption Level via Organisation Type 122
4.13 KM Adoption and Number of Employees 123
4.14 Position responsible for KM Functioning 126
4.15 Agile Practices used for Knowledge Capture and Acquisition 127
4.16 Rewards for Knowledge Sharing 128
4.17 Methods taken for Facilitation of Knowledge Sharing 129

Chapter 5   Knowledge Sharing Strategies in Distributed Agile Software Development

5.1 Introduction 137
5.2 Kind of Knowledge Shared 137
5.3 Tool Support for Knowledge Sharing 138
5.4 Support of Documentation for Knowledge Sharing 144
5.5 Documentation Used for Knowledge Sharing Produced by Projects 149
5.6 Agile Practices Used for Knowledge Sharing in Distributed Environment 150
5.7 Strategy for Knowledge Sharing in Distributed Agile Environment 152
5.8 Guidelines for Knowledge Sharing in Distributed ASD 154

Chapter 6 Parameter for Applicability of Agile Distributed Environment

6.1 Introduction 159
6.2 Factorising the Parameters 161
6.3 Outcome of the Factor Analysis 163
6.4 Interpretation of Factors 168
6.5 Reliability Analyses 171

Chapter 7 Design and Validation of Agile Information Radiator (AIR)

7.1 Introduction 173
7.2 Information Radiator 173
7.3 Requirement Extraction for Agile Information Radiator (AIR) 174
7.4 Conceptual Schema of AIR 181
7.5 Overall Schema of AIR 183
7.6 Designing the Agile Information Radiator 186
7.7 Verification and Validation of the Tool 220
7.8 Advantages/Features of Proposed AIR 221
7.9 Future Scope of AIR 222

Chapter 8 Conclusion and Recommendations

8.1 Introduction 223
8.2 Summarisation of Finding of KM Practice Adoption Survey 224
8.3 Agile Practice Used for Software Development 230
8.4 Agile Practices Used for Knowledge Capture and Acquisition 231
8.5 Outcomes and Recommendations of the Agile KM Survey 232
8.6 Knowledge Sharing Strategies in Distributed Environment 233
8.7 Findings and Recommendations of Parameter of Applicability of Agile 235
8.8 Findings and Recommendation of Agile Information Radiator (AIR) 237
8.9 Major Contribution of the Study 239
8.10 Limitations of AIR 241
8.11 Scope for Future Research 241

Bibliography 243

APPENDICES

Appendix A
Questionnaire A1
