Acknowledgement

I, wish my sincere gratitude and overwhelming indebtedness to my esteemed supervisor Prof. Devinder Singh, Department of Zoology and Environmental Science, Punjabi University, Patiala, for his competent guidance, valuable suggestions, meticulous efforts, and above all the ever-encouraging attitude during the tenure of the entire research assignment. I am pleased to acknowledge my sincere thanks to Dr. S.K. Singla, Department of Biochemistry, Panjab University, Chandigarh, for his excellent supervision, constructive guidance, untiring help and generous suggestions during the pursuance of this study.

I am highly obliged to the Dr. Jagbir Singh, Chairpersons, Department of Zoology and Environmental Science, Punjabi University, Patiala.

I express my gratitude to Dr. Sunil Arora, Department of Biochemistry, Central Research Institute, Kasauli and Dr. Ashok Goel, for their ever-willing help and encouragement during the entire course of this study.

I am indeed grateful to Mrs. Kusum Chopra for carrying out the statistical analysis of the present data.

I am extremely thankful to all the faculty members of the department for their valuable contributions to make this study fruitful.

The help and cooperation rendered by the technical and non-teaching staff of the department is deeply acknowledged. I am thankful to Mr. Rajesh for all the help provided at right time.

A special note of thanks is due to my friends, Dr. Meenakshi and Dr. Seema for their continuous help and moral support.
I deeply appreciate the help of my colleagues Rashmi, Bhawna, Neetu, Naina, Riya and Manish for their direct and indirect support from time to time during the execution of this project.

I find extremely difficult to verbalize my deepest sense of indebtedness to my parents Raj Singla and Sushil Singla for their boundless love, support, constant care, understanding and patience that really kept me going to complete this venture. I tried hard to be worthy of them. I also gratefully acknowledge the help of my brother, bhabhi and in laws for successful completion of this work. I extend my sincere thanks to them for everything they have done for me.

For the deep affection and patience of my husband, Mr. Nitin Jindal, I owe more than I can express and without whose constant cooperation and moral support, it was just difficult for me to complete this task successfully. My son Basu Jindal deserves fond gratitude who had to suffer a lot during my research work. I am thankful to all of my family members for their constant support.

No words would suffice to express my thanks to those innocent creatures who sacrificed their lives, without which, this study would not have been possible.

Lastly I would like to thank Almighty who showered me his kindness and provided me endurance and eventually rewarded me with the completion of this task.

Dated:       (Kanika Aggarwal)
