ACKNOWLEDGEMENT

In the Name of Allah, Most Gracious, Most Merciful. The guidance of the Almighty has been the inspiration behind my endeavours during the course of my Ph. D. degree, from inception to completion.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. During my thesis work, I have been accompanied and supported by many people, and it seems to be an impossible task to name all. I am going to try anyway, and if your name is not listed, rest assured that my gratitude is not less than for those listed below.

First I would like to thank my revered and learned Supervisor Prof. Aruna Bhatia, Dean Life Sciences, Punjabi University, Patiala for her incessant guidance, perspicacious thoughts, constructive criticism, wonderful analysis, enthusiasm, inspiration and her great efforts to explain things clearly and simply. Throughout my thesis writing period, she provided encouragement, sound advice, good teaching, good company, and lots of good ideas. It has been a great opportunity to work under such an experienced and caring teacher.

It is great pleasure for me to express deep sense of gratitude to my Co-supervisor Dr. Qazi Parvaiz Hassan, Scientist Indian Institute of Integrative Medicine, (CSIR) for his consistent guidance, invaluable suggestions and encouragement. During these years, I have known him as a sympathetic and principle-centered person. His overfly enthusiasm and integral view on research and his mission for providing ‘only high-quality work and not less’, has made a deep impression on me. I am really glad that I have come to know the person like him in my life.

I would like to offer my sincere regards and gratitude to the Director of Indian Institute of Integrative Medicine (IIIM), Jammu, Dr. Ram Vishwakarma, who gave me chance to work in his prestigious institute and provided excellent infrastructure, so that a lack of resources is unimaginable. His managerial skills and passions in science had exceptionally inspired and enriched my growth as a student and a researcher.

I am deeply grateful to the scientists of our laboratory especially Dr. K.A. Suri, Dr. Naresh Kumar Sati, Dr. Dilip M. Mondhe, Dr. Anamikah Khajuria and Dr. Abid Hamid Dar for their kind and valuable help in my difficult times, providing the required facilities and cooperation throughout the tenure of the present work.

It is my out most pleasure to thank Dr. R. S. Singh, Head, Department of Biotechnology Punjabi University for giving moral support and encouragement. I would also like to acknowledge Dr. P.P. Balgir, Dr. Neelam Verma, Dr. Munish Puri, Dr. Minni Singh, Dr. Seema Garcha, Dr. Baljinder Kaur and Dr. Balwinder Singh Sooch for their genuine support whenever asked for.
I express my heartfelt Thanks to my dear colleagues Zahoor, Asif, Ashiq, Tabasum, Adil, Girish, Shabir, Refaz and Irshad who were always there when I really needed and lightening my burden with their briskness. Thank you doesn't seem sufficient but it is said with appreciation and respect to all of them for their support, encouragement, care, understanding and precious friendship.

I would like to express my sincere thanks to all my loving friends at IIIM Jammu and friends at Punjabi university who don't find their names here for their wonderful company, which became a refreshing oasis for me, for fond memories and teas, and for patiently putting up with all the adjustments to our customary meal-times, and otherwise.

No words can adequately convey thanks to my dears Dr. Syed Mudassir Jeelani, Dr. Sheikh Fayaz Ahmad and Dr. Imtiyaz Murtaza who remained besides me every time whenever I needed them and provided moral support at every step of my career.

I owe a special word of appreciation towards my University labmates Tulika maam, Mansimran, Nishu, Arpit and Rupali for their timely assistance.

I gratefully acknowledge the cooperative attitude and painstaking efforts of non-teaching staff members of respective institutions.

The diamond in the ring of my career is due to the true and loyal support of my parents. With all sincerity, I convey gratitude to my family for their unflagging love and support throughout my life particularly my father, Sheikh Ali Mohd. and Mother Hafeeza Bano for their care and love. As archetypal parents, they worked industriously to support the family and spare no effort to provide the best possible environment for me to grow up and attend school. My parents were the rock to steady and support me throughout the whole time. They had never complained in spite of all the hardships in their life. I find myself short of words in offering my deep sense of gratitude to my brother Er. Sheikh Imtiyaz Ali, without his constant support and encouragement, my step away from could not have been possible.

My gratitude also lies towards my other family members especially my grandparents, no words I write here will ever do justice to their invaluable prayers for me; their paramount support, constant encouragement, and profound love has been the most important source of comport and guidance to me; which has been seminal in keeping me anchored to the shore at high tide and of inherent value to me at every step of the way.
