ACKNOWLEDGEMENTS

I wish to extend my warm thanks and gratitude to my revered teacher and guide, Prof. (Dr.) P. Kachroo for his supervision, guidance and constant encouragement during the course of this investigation.

To the University Grants Commission and the University of Kashmir, I am indebted for financial assistance which enabled me to complete this investigation.

I am thankful to Mr. A.M. Mir (Res. Sch.) for his help during the various phases of this work; and to Dr. Gur-Charan Singh of the University of Delhi for his help in collection and identification of plants. I also appreciate the generous cooperation of my colleagues especially Mrs. Q. A. Jeelani and Mr. Uppeandra Dhar.

To Dr. Arjumand Khan Durani, I am thankful for translating some German scripts into English.

Last, but not the least, I gratefully acknowledge the good wishes and help of my teachers and friends.

A. B. Khan.
