ACKNOWLEDGEMENT

In completion of this work I owe greatest debt of gratitude to my teacher and supervisor Dr. A.K. Mattoo, Professor and Head, and Dean, Faculty of Commerce and Management Studies, University of Kashmir, who not only inspired me to undertake this assignment but also supervised it at all levels of its completion. His sincere and heart-touching encouragement throughout the period, made it possible to complete the thesis. Inspite of his pre-occupations he made it possible to provide me uninterrupted guidance, help and encouragement, whenever I approached him for the same. I must frankly confess that this work would not have seen the light of day without his active involvement, support and guidance.

I am also thankful to my Co-supervisor Dr. Khurshid Ali, Reader, Department of Commerce, whose contribution in completing this thesis was significant. He, as well as other members of the staff of the faculty not only encouraged me but also provided
food for thought through their discussions in putting this whole work in right perspective.

Research is an outcome of efforts put in by various people striving for a common objective.
