ACKNOWLEDGEMENT

My work is a projection of unfaltering support and inexorable encouragement from my supervisor so it is my proud privilege to express my indebtedness to my revered guide, philosopher Prof. N. A. Nadeem, Department of Education, University of Kashmir. He deserves my thanks beyond the scope of my vocabulary. His erudition and profundity of thoughts has had an inexplicable impact on my research. Even on moral front he stood firm and made things highly flexible with his valuable suggestions and practical advices that helped tide over the difficulties confronted in the preparation of this thesis, these laudable efforts are duly acknowledged.

To execute my research would have been a baptism of fire without the aid of Head & Dean of the Department of Education, Prof. G. M. Malik, whose perpetual support is inextricably linked with my completion of research.

A special note of thanks is also due to Dr. Tariq Rashid Jan for his generosity, encouragement and statistical analysis of data.

I express a sense of gratitude to the respondents who cooperated with me by giving requisite information and who shared with me their feelings and emotions with all patience and tolerance.

My parents enhanced my endeavour towards the final achievement by their constant co-operation is worth mentioning. It is due to their sincere, parental affection, and creative guidance to carry on the work which really served as beacon.
fight for me. My father Dr. Abdul Rafiq Bhat equally shares my ecstasy. His optimism for my erudition gives the present achievement the name of nascent success.

My husband Dr. Haroon Rashid Jan, my children, Zainab Haroon Jan and Zaid Haroon Jan deserve my appreciation for their support and cooperation to me during the study without whose constant help and encouragement it would have been impossible for me to achieve this goal.

I am thankful to librarians of various institutions/universities- Help Age India, NCERT, ICSSR, Jawaharlal Nehru University, Voluntary Health Association of India, Indian Social Institute (I.S.I), Indian National Scientific Information And Documentation Centre (INISIDOC), All India Institute of Medical Sciences, International Institute of population Studies(I.I.P.S), University of Kashmir, Population Research Centre and their staff for their cooperation and help in order to make use of their library facilities.

The cooperation of my parents-in-law in the successful completion of the present work is worth mentioning. I extend my heartfelt thanks to them.

I am also grateful to my friends especially, to Dr. Yasmeen Ashai and Mrs. Yasmeen Khan for their help and encouragement.

My sincere thanks are due to Mr. Tariq Ahmad Lone for computerization of the data.

A very special thanks to Mr. and Mrs. Javeed Ahmad Bhat who had been quite industrious to transform my manuscript into a beautiful typescript in short span of time.
