ACKNOWLEDGEMENTS

I express my deep and profound gratitude to
Professor Jagdish Shankar, formerly Head, Chemistry Division,
Bhabha Atomic Research Centre, Bombay and Visiting Professor,
University of Kashmir, Srinagar for suggesting the problem and
his valuable guidance and incessant encouragement given to me
throughout the course of this work.

I am highly thankful to Director, B.A.R.C., Director,
Bio-Medical Group, B.A.R.C., and Dr. M.S. Chadha, Associate
Director, Bio-Medical Group, B.A.R.C., Bombay, for permitting
me to carry out part of my research work at the Bio-Organic
Division of the Centre, and for providing all laboratory and
instrumental facilities.

I am greatly indebted to Dr. N.B. Mulchandani of Bio-
Organic Division, B.A.R.C. for his helpful discussions, valu­
able suggestions in solving research problems and for taking
keen interest in my work. I also thank Dr. A.V. Patankar and
his group for assistance in the spectral and microanalytical
analysis. I also take this opportunity to thank all the
research workers of Phytochemistry Section of Bio-Organic
Division for their kind co-operation and help.

My thanks are due to the Director, Centre of Research
for Development, University of Kashmir, Srinagar, for his
interest in the work and to the Vice-Chancellor, University of
Kashmir, for his kindness and understanding in permitting me
to carry out the work at B.A.R.C.
I am grateful to University Grants Commission for the award of J.R.F. and to the Department of Atomic Energy, Govt. of India, for awarding J.R.F. (B) and S.R.F. without which this research work would not have been possible.

In the end I would like to place on record my appreciation to Mr. A. Karunakaran for typing the thesis and to Mr. K.G. Balachandran, A.P.O. for his kind help.

Beena Bakshi
