ACKNOWLEDGEMENTS

This thesis arose in part of research that has been done. By that time, I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis deserved special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgment.

In the first place I would like to record my gratitude to Prof. N. Subbarami Reddy for his supervision, advice, and guidance from the very early stage of this research as well as giving me extraordinary experiences throughout the work. Above all and the most needed, he provided me unflinching encouragement and support in various ways. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist want to be. I am indebted to him more than he knows.

Words are insufficient to express my affectionate gratitude to my parents for their ever-lasting love, encouragement and support. I express my deep sense of love for my caring parents Sri. P. Ranganatha Reddy and Smt. P. Sreedevi without whose prayers and blessings my quest would have remained unfulfilled.

I express my gratitude to the University Grants Commission, New Delhi, for providing financial support in the form of Project Fellow under the MRP sanctioned to Prof. N. Subbarami Reddy, Principal Investigator & Prof. K. Mohana Raju, Co-Investigator of the project.

I owe my most sincere gratitude to Prof. K. Mohana Raju, Chairman BOS, for his co-operation, advice and helpful discussions throughout my research work.
My sincere thanks to Prof. A. Varadarajulu, Prof. S. Venkata Naidu, and Prof. K. Chowdji Rao, Head, Dept. of Polymer Science & Tech. for their cooperation and constant encouragement.

It gives me pleasure to acknowledge the help rendered by Dr. B. L. V. Prasad and Dr. P. P. Wadgaonkar, Scientists, NCL, Pune in suggesting the scientific solutions at the beginning of the research work and also providing the SEM analysis.

I express my high regards to Prof. B. Sobha Rani, Head & Chairman BOS, Dept. of Commerce, S.K. University for her constant support and appreciation regarding my work.

In regards to the TEM Analysis, I thank Mr. B. Sreedhar for his valuable expertise on TEM analysis. Inorganic and Physical Chemistry, Indian Institute of Chemical Technology, Hyderabad, Andhra Pradesh.

I also wish to express my gratitude to my beloved brother and my friend who initiated me to pursue research, Dr. N. Narayana Reddy, for his constant help throughout my Doctoral programme.

I would like to place my hearty and loving gratefulness to my beloved Senoir Dr. K. Vara Prasad who helps in difficult times, and for all the emotional support, camaraderie, entertainment and carrying he provided.

It is a pleasure to acknowledge the cheerful company and assistance of my research group to Dr. G. Ramachandra Reddy, Dr. S. Ravindra, Dr. G. Siva Mohan Reddy, Miss. Dr. K. Vimala and I also thanks to my friends M. N. Prabhakar, Y. Ramalinga Reddy and my Juniors Mrs. B. Manjula, G. M. Raghavendra, T. Jayaramudu for their cooperation in carrying out my research work.
In regards to the Antimicrobial analyses, I thank Mr. G. V. Subba Reddy, research scholar, Department of Microbiology, S.K. University for doing Antimicrobial analyses analysis.

Finally I would like to thank the S. K. University, Anantapur Authorities for providing necessary facilities.

Last but not the least I express my sincere thanks to all the persons who have directly and indirectly helped me to complete this thesis.

P. Ranga Reddy....
