ACKNOWLEDGMENTS

I express my profound feeling of gratitude and indebtedness to my teacher and affectionate research supervisor Dr. B. Rajasekhar Reddy, Professor & Chairman, Board of Studies in Microbiology, Sri Krishnadevaraya University, Anantapur, for assigning this research topic, invaluable guidance, constant encouragement and valuable suggestions throughout my research work.

I am indebted to the faculty of the Department of Microbiology, Prof. K. Venkateswarlu (Rtd.), Prof. R. Ramanjaneyulu (Rtd.), Prof. P.B.B.N. Charyulu (Rtd.), Prof. V. Rangaswamy, Head, Dept. of Microbiology and Prof. B. Venkatappa for their encouragement, cooperation and providing the necessary facilities to carry out research work.

I express my deep sense of gratitude to Prof. G. H. Philip, Co-ordinator of Biotechnology for utilizing HPLC to analysis of the pesticide residues.

I would like to acknowledge service rendered by Dr. D. Muralidhara Rao and Dr. M. Rafi, Department of Biotechnology, Sri Krishnadevaraya University, Anantapur and Rubesh Kumar, Faculty member, College of Pharmacy, OTRI, Anantapur in the pesticide residue analysis by HPLC.

I place it on record help from Kannapu Harinath Reddy, IICT, Hyderabad and A. Harinath Reddy, Pesticide Residue Laboratory, ANGRAU, Hyderabad for GC-MS analysis of samples.

I would like to acknowledge service rendered by Ocimum Biosolutions, Hyderabad and Mr. Anwesh, RMRC, Port-Blair for 16S rRNA gene sequence analysis of bacterial cultures.

I thank Dr (Mrs). Vasundara Rajasekhar Reddy for her help and valuable suggestions.

I am grateful to the University Grants Commission, New Delhi and Council of Scientific & Industrial Research, New Delhi for the award of Project Fellow in UGC-MRP of Prof. B.R. Reddy and the award of CSIR-Senior Research Fellowship (CSIR-SRF) for the year 2012.
I am thankful to my senior research Scholars, Dr. GVAK Babu, Dr. G. Narasimha, Dr. A. Sridevi, Dr. M. Subhosh, Dr. B. Viswanath, Dr. M. Prasanthi, Dr. H. Pallavi, Dr. M. Srinivasulu, Dr. P. Srilatha, Dr. K. Monika and Dr. K. Praveen for their help.

My special thanks are due to my friends, K. Vara Prasad, Sivagangi Reddy, C.V. Prasad, M.N. Prabhakar, G.S. Mohan Reddy, Rubesh, Ravi, Mithil, NN Reddy, Jayaprakash, Anwesh, Hemasundar, Penchal Reddy, Jaffer, Dr. Swamy (Inst), Tahaseen, Nageswari, Ramya, soumya, Usha, Shanthi, Ramanjaneyulu, Hari, Ramaiah, Dileep Kumar and all my junior Research fellow colleagues for their constant help and encouragement throughout my research work.

I would like to extend my sincere thanks to fellow research colleague friends in other departments Babajan, chaitanya, Raj, Tulla, Sudhakar, Althaf, Mr (s) Eswar Ramya Reddy, Sudhakar, Pandu, Hari, Madhu, Siva Jyothi, CLN Reddy, Jayaramudu, Manju, Venkat, Amar, Balaji, Kamalakar, Tippa Reddy, Guruswamy, obi, Jayaram and Jeevan for their help, cooperation and encouragement in this research work.

I thank the nonteaching staff of the Department of Microbiology, Mr. Nagaraj, Mr. Obalesu, and Mr. Ramudu for their cooperation.

My lovable thanks are due to my beloved parents Smt. & Sri. G. Nagamallamma and G. Subba Reddy, my family members Venkata Subba Reddy, Chandravati, Sreenivasa Reddy, Ratnamma, Sunitha, Supraka, Purusoatham, Venkata Subbamma, Reddappa, Manoj, Manohar, Parvathi Jayaram, Chandra, Vijayalakshmi, Saraswati and my uncle Mr(s) Santamma Pulla Reddy for inspiration and encouragement during the course of this investigation.

Last but not least thanks to my first teacher Bandaru Rajasekhar Reddy.

My special thanks to all the authors in reference list for constant support to write this thesis. Any omission in this brief acknowledgment does not imply ingratitude.

Subba Reddy, G.V.
