ACKNOWLEDGEMENT

It gives me great pleasure to express my deep sense of gratitude and obligation to my honourable guide Dr. R. J. Verma, Professor, Department of Zoology, Gujarat University, Ahmedabad, under whose valuable guidance, keen interest, meticulous efforts and constant encouragement, the present assignment came to its successful end.

I am very much indebted and grateful to Dr. M. V. Rao, Professor and Head, Department of Zoology, Gujarat University, Ahmedabad, for providing me the opportunity to pursue with the research and for his kind cooperation and immense support in completing my work.

With immense pleasure and gratitude I acknowledge Dr. U. M. Raval, Dr. N. K. Jain, Dr. H. N. Highland, Dr. K. R. Desai, Dr. Divya Chandel and Dr. Pranav Shrivastava for enlightening me throughout my research work.

I take this opportunity to present my sincere thanks and affection to Mrs. Manjeet, Mrs. Deepa, Miss Neeta, Miss Devjani, Mrs. Priyanka, Mrs Krithika, Miss Neha, Mrs. Komal and Mr. Mrugesh for encouragement and timely help which enabled me in completing this work. Sincere appreciation is extended to all my friends for their support.

I don't have words to express my gratitude to my parents, my in-laws, brother and my husband Dr. Lalit. I thank them for giving me the freedom to pursue my dreams. Research work, most times, is really demanding, and it was their shared sense of excitement and confidence that reassured me that it was all worthwhile. I am sure they will have a greater sense of achievement than me on this thesis submission.

During the study period, there have been many people within and outside the department who have very kindly, directly or indirectly helped me. I am extremely grateful to all of them.

I am also thankful to Mr. Anil Kumar in Gujarat Laboratories for helping me in HPLC analysis. I express my appreciation to Mr. Nambiar for painstaking typing the manuscript with efficiency.

VEENA M. ASNANI
