ACKNOWLEDGEMENT

The author expresses his sincere thanks to Dr. R. Rudramoorthy, Principal, PSG College of Technology and the Management of PSG Institutions for the infrastructure and facilities provided to carry out this research work.

The author is deeply indebted to his supervisor Dr. A. Kandaswamy, Professor and Head, Department of Biomedical Engineering, PSG College of Technology, Coimbatore, for his able guidance, valuable suggestions and continuous encouragement for the successful completion of this research work.

The author wishes to extend his sincere thanks to Dr. S. Subha Rani, Professor and Head, Department of ECE and Dr. R. Venkatesan, Professor and Head, Department of IT, PSG College of Technology, Coimbatore for their support and encouragement.

The author wishes to thank Dr. G. Rajendiran, Professor, Department of Cardiology, PSG Institute of Medical Sciences and Research, Coimbatore for his guidance and cooperation in providing the necessary medical data for this research work.

The author’s sincere thanks are due to his Ph.D. doctoral committee members Dr. S. Arumugam and Dr. A. Shanmugam for their constructive comments and suggestions.

The help and cooperation received from the faculty colleagues, technical staff, students and family are gratefully acknowledged.

V. MAHESH
