ACKNOWLEDGEMENT

All thanks to Almighty Allah, the most Beneficent and Merciful, who gave me courage to complete this thesis. Here I feel bound to mention the role of various personalities who have contributed to the completion of this work. First of all I would like to express my sincere feelings and gratitude to my guide and mentor, Dr. Aneesa Shafi, without whose able guidance, valuable suggestions and affectionate encouragement I would have wandered aimlessly in an endless labyrinth.

I feel highly obliged to Prof. Bashir Ahmad Dabla, who provided me with the broad framework and general guidance within which I carried out my work and for the valuable help he has rendered to me.

I cannot forget the invaluable help which Mr. Saleem Jahangir provided me from time to time.

I am also thankful to all the staff members and the Librarian of this Department and the Library staff of the department and Iqbal Library for providing me the literature I needed.

I am as ever beholden to my family members and I wish to express my sincere thanks to my parents, who have always been a source of inspiration and encouragement to me from the very inception of my career. Their encouragement and good wishes have played a major role in the completion of this thesis. I again thank them for providing me material support throughout the course of my study.

I would be failing in my duty if I did not acknowledge the support of my elder brother Mr. Mubashir Hassan, for the immense help at the various stages of the study which he always rendered to me. It would be doing injustice to my sisters and sister-in-law if I do not mention their role which they played by performing each and every domestic work and leaving me
free for these pursuits. Besides, the support of my grandmother and cousins especially of Mr. Abdul Manan cannot be overlooked.

I also thank everyone who has helped me either directly or indirectly in the completion of this study.

Last, I thank all the respondents without whose cooperation the present study would not have been a possibility.

Sham Sun Nisa
