ACKNOWLEDGEMENT

At this moment of accomplishment, first of all I pay homage to my guide, Dr. M. Ramesh, Ph.D., Associate Professor, Unit of Toxicology, Department of Zoology, Bharathiar University, Coimbatore, for the continuous support of my Ph.D study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study. I successfully overcame many paths and learned a lot. I can’t forget his hard times.

Besides my advisor, I would like to thank Dr. K. Sasikala, Professor and Head, Department of Zoology, Bharathiar University, Coimbatore, for providing necessary infrastructure and resources to accomplish my research work. I also wish to express my grateful thanks to Dr. G. VaniThakumari, Professor and Former Head, Department of Zoology, Bharathiar University, Coimbatore for evincing keep interest in this work.

I am grateful to Dr. K. Murugan, Professor, Dr. P. Saravanabhavan, Reader, Dr. V. Ramasubramaniam, Lecturer, Dr. C. Gunasekaran, Lecturer and Dr. S. Kannan, Lecturer, Department of Zoology, Bharathiar University, for their valuable suggestions, critical comments and constant source of encouragement to complete this thesis.

My sincere thanks to Mr. V. Maruthappan for the technical assistance during the course of study and also heartfelt thanks to office staff, Mr. A. Senthil Kumaresan, Mr. M. Thangavel, Mr. Jagadeesh Lal and Mr. S. Kannan for their constant help during my work.

I take this opportunity to sincerely acknowledge the University Grant Commission (UGC), Government of India, New Delhi, for providing financial assistance which buttressed me to perform my work comfortably.

I owe a great deal of appreciation and gratitude to Dr. S. Muralidharan, Principal Scientist, Division of Ecotoxicology, Salim Ali Center for Ornithology and Natural History (SACON), for tissue analysis through Atomic Absorption Spectrophotometer (AAS).

My sincere expression of thanks to Professor, Dr. K. Natarajan, Department of Chemistry, Bharathiar University, for providing laboratory facilities on-tissue processing for bioaccumulation study and I do thank Ph.D. students of chemistry lab Ms. T. Sathyakamatchi, T. Indhumathi, K. Praba, for providing me experimental hands-on different aspects.

I owe gratitude to Dr. T. Muthukumar, Assistant professor, Department of Botany, Bharathiar University, Coimbatore, for his immense help during statistical analysis.
My thanks are due to Mr. J. Castro, Manager, Tamil Nadu Fisheries Development Corporation Ltd., Aliyar Fish Farm, Aliyar for the timely supply of specimens.

I would also like to thank the library staffs of Bharathiar University and Salim Ali Center for Ornithology and Natural History for their kind help for my literature collection.

I would like to thank my colleagues Mr. S. Senthil Kumaran, Mr. M. Saravanan, Mrs. Y. Thangam, Dr. C. Kavitha, Mrs. L. Suvetha, Mr. AbhiJith D. Bhat, Mrs. M. Sangeetha Ms. S. Lavanya, Mr. R.K. Poopal, Mr. M.S. Selvaraju, Ph.D Research Scholars, B. Rangasamy, S. Subbaiah, D. Hemalatha, M.Phil Scholars and M.Sc students, Unit of Toxicology, Department of Zoology, Bharathiar University, Coimbatore for their immense help, to complete this piece of work.

My special thanks goes to my friends Ms. B. Subha, R. Jayasudha, R. Sowdeswari, M. Jayanthi, V. Lakshmi, P. Deepa, Mr. K. Sathiyadash, Ms. E. Uma, Mrs E. Josebin Rajula, who willingly devoted so much time in giving suggestions, encouragement and tireless efforts during my research endeavor.

My deepest gratitude goes to my family for their unflagging love and support throughout my life; this dissertation is simply impossible without them. As a token of gratitude, I take the honor of dedicating this thesis to my beloved parents, Mr. A. Annamalai and Mrs. A. Annakodi, who put me in the wide world of plentiness. My sisters, Ms. Manimozhi, Mrs. K. Valarmathi, Mrs. R. Sasirekha, Ms. M. Sangeetha and my brothers Mr. A. Siva, M. Vijay, who readily shared my pains and pleasures and whose constant encouragement helped me to reach the shores of success.

It’s my fortune to gratefully acknowledge the support of some special individuals. Words fail me to express my appreciation to my uncle, Mr. C. Raju, for his support, generous care, valuable suggestions and constant encouragement throughout my educational career. I extend my thanks are due to my uncles, Mr. A. Mani, Mr. A. Karunanithi and my aunty Mrs. M. Lakshmi, for their inspiration, help and support to bring this thesis in the present form.

Above all, I thank the Lord Almighty for the abundant blessings showed upon me during this study period and also for His guiding hands which were always with me.

(A. Malarvizhi)
