CONTENTS

CHAPTER - I : INTRODUCTION 1-23
CHAPTER - II : CHEMICAL EXAMINATION OF THE STEM BARK OF APHANANIXIS POLYSTACHY.A.

SECTION - I 29-46
Structural study of the Compound-A
(Poriferasterol-3-0-\(\alpha\)-L-rhamnopyranoside).

SECTION - II 47-50
Structural study of the Compound-B
(\(\beta\)-sitosterol)

SECTION - III 51-54
Structural study of the Compound-C
(Stigmasta-\(\beta\)-ol)

SECTION - IV 55-73
Structural study of the compound-D
Aglaiol-\(\beta\)-0-\(\alpha\)-L-rhamnopyranosyl-(1\(\rightarrow\)4)-\(\beta\)-D-xylopyranoside.

contd..
SECTION - V
Structural study of the compound- E
(1, 5-dihydroxy-6,7,8-trimethoxy-2-methyl-anthraquinone-3-O-β-D-xylopyranoside)

SECTION - VI
Structural study of the Compound- F
(7, 4′-dimethoxy flavanone-5-O-α-L-rhamnopyranoside).

CHAPTER - III : CHEMICAL EXAMINATION OF THE ROOTS OF SAPTUM INSIGNIS
Structural study of the Compound- I 115- 129
(3-O-acetylcycloart-23-ene-25-ol).

CHAPTER - IV : CHEMICAL EXAMINATION OF THE HEARTWOOD OF ACACIA LEUCOPHLOEAE WILLD.

PART - I
SECTION - I
Structural study of the Compound- A
(Cetacosanol)

contd..
SECTION - II  
Structural study of the compound B 
(+)-Pinitol 

PART - II  
Antibacterial activity of the 139-146 extracts - B, C, E and F. 

SECTION - I  
143 
Antibacterial activity of the benzene extract (Fraction-B) 

SECTION - II  
144 
Antibacterial activity of the chloroform extract (Fraction-C) 

SECTION - III  
145 
Antibacterial activity of the acetone extract (Fraction-E). 

SECTION - IV  
146 
Antibacterial activity of the methanol extract (Fraction-F)
