ACKNOWLEDGEMENTS

The early days flash in my memory, when I took up this problem, "Voltammetric Studies on Some Electrochemical and Physicochemical Properties of Some Transition Metals and Rare Earths". Totally inexperienced as I was. I could enjoy working on the problem only because of that keen interest, constant invaluable guidance and time to time needful suggestions, that I was so fortunate to receive from Dr. K.S. Pitre, Reader in Chemistry. He has been a constant source of inspiration during this long research period. My expression is perhaps not adequate enough to express the debt that I owe towards the person, who as a teacher and as a guide cum parent has characteristically left no stone unturned to help his student and gave me a first lesson and glimpse of real research work. He helped me to pursue the goal.

I express my profound sense of gratitude to Professor S.P. Banerjee, Head, Department of Chemistry, Dr. Harisingh Gour Vishwavidyalaya, Sagar for his unvarying kindness and encouraging provision of facilities for my research work.

I wish to express my gratitude to all of my teachers and seniors in the department, who whole heartedly cooperated in the completion of this work and take opportunity of extending my words of cordial thanks to Dr. Sandeep Narad (Indore) for his help and affection. I shall be failing in my duty, if I
do not thank to my research colleagues Mr. Yadendra Rohan and Ms. Neerja Verma, who even at the cost of their invaluable time were kind enough to help me in different stages of this work.

I would like to place on record my gratitude towards my uncle Shri Rajendra Narad, Sales Tax Officer, formally posted here (in present at Indore) and my younger brother Shailendra Narad and Sameer Narad for their affection and encouragement at Sagar.

My expression is perhaps not adequate enough to express my feelings towards my Papa and Mummy, my sister Vineeta, Brothers Vinamra, Vikas and Vibrant for their constant invigoration, understanding and academic moral support and good wishes.

[ VINAY KUMAR JAIN ]
