Acknowledgements

The early days flash in my memory when I took up this problem. Totally unexperienced as I was, I could enjoy working on the problem only because of that keen interest, constant invaluable guidance and time to time needful suggestions, that I received from Dr. A.K. Banerjee, Professor in Chemistry, Dr. Hari Singh Gour Vishwavidyalaya, Sagar (M.P.). My expression is perhaps not adequate enough to express the debt that I owe to him, who not only guided me but characteristically left no stone unturned to help me and gave the first lesson and glimpses of real research.

I hasten to register my note of sincerest thanks, to Professor S.P. Banerjee, Head Department of Chemistry, Dr. H.S. Gour Vishwavidyalaya, Sagar, not only for the research facilities provided by him in my research endeavour but also for his continued interest and encouragement.

I am thankful to RSIC, CDRI Lucknow, for spectral analysis, RSIC, Bombay, IARI, Delhi, IIT Bombay for analytical help. The help of Sigma Chemical Company, St. Louis, USA in supplying the authentic sample is acknowledged.

I am thankful to Prof. A.K. Singh, Chemistry Department, IIT Bombay for his help in HPLC analysis.

Personal debts are very difficult to acknowledge, Kiran didi and Shradha didi adorn a special place in my heart for their magnanimity, immense help, constant love and affection. The invaluable help rendered by Poornam, Dolly, Meenakshi, Sangita and Nirmala will be perpetually remembered.

Akhila and Sunil were affectionately rendered for their helpful attitude and encouragement. To a more intimate indebtedness towards my friends Anjana, Archana, Anita, Neeli and Kalpana for their special interest in this endeavour. I am grateful to my co-researchers Laxmi, Ratnesh, Abhilasha, Praveen for their keen and continued interest, periodic discussion and kind encouragement.
Moments of depression occasionally visited me due to the sickening monotony of the work-a-day routine. During such phases Kavita, Ranjan, Venita, Sanjita di & Rajni di played a key role as my moral boosters and I seize this opportunity of extending my warmest thanks for their kind and reassuring notes of cheers.

I would like to place on record the long standing and never ending sense of gratitude towards my students especially towards Rajni, Nidhi, Neelu & Kalpana for their timely love.

My deepest appreciation and gratitude goes to my Parents, for their perseverance love and blessings which enabled me to complete my work inspite of all odd. The help and encouragement from my younger brother Deepak and sister Seema is also fondly acknowledged.

Bonded by the bond of natural piety, I am deeply indebted to my grandparents for the moral support, the affection and good wishes that they have flowed in towards me in an abundant measure.

Finally in the course of my research I have learnt so much from so many scholars that I owe as much to as many scholars in this University and in other academic institution. I therefore treat it as my proud privilege to place on record my humble notes of gratitude, indebtedness and thanks them to all.

Lastly I thanks my typist Mr. Nafis (Perfect Computers) for his neat typing.

Suman Singh
