ACKNOWLEDGEMENTS

Not as a mere formality but with all humility and full reverence, I take this opportunity to record my gratitude to my esteemed research supervisor Dr. (Mrs.) Savitri D. Srivastava, Lecturer in Organic Chemistry, Department of Chemistry, Doctor Harisingh Gour Vishwavidyalaya, Sagar (M.P.) whose learned and able guidance was indispensable for the completion this work. She has always been a fountain of inspiration to me. Her scholarly suggestions, ready help and gracious demeanour made it possible for me to bring this humble attempt to completion.

I am very much thankful to Professor S.P. Banerjee, Head, Department of Chemistry, Doctor Harisingh Gour Vishwavidyalaya, Sagar, for providing the necessary facilities for this work.

I further extend my thanks to Director, RSIC and Dr. A.K. Goel, Department of Pharmacology, Lucknow (U.P.) and Regional Research Laboratory, Bhopal (M.P.) for providing the spectral, analytical and pharmacological screening of the synthesised compounds described in this thesis.

I am also grateful to Head, Department of Botany, Doctor Harisingh Gour Vishwavidyalaya, Sagar, for providing laboratory facilities of antimicrobial activity mentioned in this thesis.

I wish to express my sincere thanks to Dr. Santosh K. Srivastava, Reader, Department of Chemistry, Doctor Harisingh Gour Vishwavidyalaya, Sagar, for his continued guidance, encouragements,
helpful comments and affectionate interest throughout the progress of the work.

It will amount to a great failure if the authoress does not express her deep sense of respect and thankfulness to her husband Mr. S.K. Chaurasia for his valuable co-operation and encouragement in absence of which work would not have reached to completion.

I offer my profound respect and express my sincere gratitude to my venerable parents, brother-in-law, Dr. M.L. Chaurasia and all family members who have affectionately offered all help and encouragements during the course of this work without whose patience, sacrifice and blessing, the work would not have reached to completion. In fact, I shall be indebted life long for their loving and encouraging attitude towards my academic work.

I wish to express my thanks to Dr. Arun K. Jain, Dr. (Mrs.) Durga Nema, Mr. Ravindra K. Jain, Mr. Praveen K. Jain, Mr. Manish Purohit, Vibhuti Srivastava, my senior and research colleagues in my laboratory and my friends Miss Sanju Handa and Miss Suman Srivastava.

Chaurasia
