ACKNOWLEDGEMENTS

I am greatly indebted to Prof. R. S. Upadhayay and Dr. Mahavir Singh for their stimulated intellectual guidance constant encouragement and unwavering support. This thesis in this shape has been possible due to invaluable suggestions active interest, their direction and practical help of Prof. R. S. Upadhayay and Dr. Mahavir Singh, inspite of thesis busy schedule.

In Dr. Singh and Prof. Upadhayay, I found an open and encouraging personality besides source of immense knowledge and dedication. His involvement with this work was both exemplary, as well as emotional. Besides an excellent guide, he has been a great friend too. I owe my gratitude to his family also, who bore it with patience while he spent hours with me.

I express my deep sense of gratitude to Dr. Omkar Sharma, Chief Scientist Acoustics, Ultrasonics & Vibration (AUV) Section NPL, New Delhi. For his constructive criticism moral support and help throughout this work. I am indebted to him for his intelligent support and ever-smiling appreciation that acted as a much needed stimuli for this endeavour.

I am thankful to Principal D.A.V (PG) College Bulandshahr for providing valuable suggestions and words of encouragement.

I am thankful to Director, CSIR-National Physical Laboratory, for giving me permission to carry out this research work. I wish to express my profound gratitude to Dr. Ashok Kumar, Head, Acoustics, Ultrasonics & Vibration (AUV) Section and Dr. A. K. Bandopadhyay, Head, Apex Level Standards and Industrial Metrology (ALSIM) for their support at each stage to carry out my research work.

I extended my sincere thank to Dr. K Renji, ISRO satellite centre Bangalore, Prof. R. J. M Craik Heriot-Watt University, UK, Prof. R. Wilson, Nottingham University UK, Dr. A. C.
C Warnock National Research Council Canada and Mr. S K Kejriwal & Mr. N K Rajput India Gypsum Limited, New Delhi for their help and fruit full discussions.

I would like to acknowledge the support of the Mr. H. Venkata Ganesh, the Managing director of Adams technologies Pvt Ltd, Chennai for providing me the opportunity to work with ODEON package.

I am grateful to Mr. Shrikrishan of CSIR-NPL and to Mr. Alok kumar of India Gypsum Limited for their help in constructing and erecting the panels in a removable test frame between two reverberation chambers throughout the experimental sessions.

I also sincerely thanks my friends Dr. Jeet singh, Dr. Shyam kumar singh, Dr. Rakesh kumar, Mr. P. M. Anand, Mr. Kannoj kumar, Mr. Satish chand, Mr. Beenu Kumar, Mr. Amit Kumar Sharma, Mr. B. P. Gaur and Mr. Sanjesh Babu all other who helped me in completing this research,

I gratefully acknowledge University Grant Commission (UGC) New Delhi for financial assistance for my selection under Rajiv Gandhi National Fellowship Scheme (RGNFS) in terms of JRF and SRF during my PhD program.

I express my heartfelt gratitude to my parents, Late Shri Harish Chand, Smt. Omkari Devi and my brothers Mr. Sukh Pal Singh, Mr. Raj Kumar and Mr. Vinay Kumar for having encouraged me to study.

I specially thanks my wife Mrs. Amresh and children Pawan kumar and Anshika singh, who saw me through the production of this thesis, for their hearty support, patience and loving participation in accomplishing this task which would not have been possible otherwise Last but not the least. I thank all my relatives and well-wishes for their support in completing my research work.

I assume responsibility for any errors which may occur in the pages which follow.

Dharm Pal Singh
