ACKNOWLEDGEMENT

The author is extremely indebted to his research supervisor Prof. R. Jayavel, Crystal Growth Centre, Anna University, for his inspiring guidance, continuous encouragement, stimulating discussion and scholarly advice to carry out the present investigations. The author is grateful to Prof. K. Baskar, Director, Crystal Growth Centre for his support. The author is also thankful to Prof. D. Arivuoli, Prof. J. Kumar, Prof. S. Moorthy Babu, Prof. S. Narayana Kalkura, Dr. M. Chitra, Dr. P. Thiyagarajan, Dr. Shubra Singh and other staff members of Crystal Growth Centre. The author is also extremely thankful to Doctoral Committee members Prof. G. Ravi, Crystal Research Centre, Alagappa University, Karaikudi and Dr. G. Sasikala, Department of Medical Physics, Anna University, Chennai for their fruitful suggestions.

The author expresses his profound gratitude and sincere thanks to Dr. A. Albert Irudayaraj, Head of the Department of Physics, Sacred Heart College, Tirupattur for his useful suggestions and encouragements. The author remembers with gratitude the intellectual enlightenment received from the senior researchers Dr. M. Subramanian, NIT-Nagoya, Japan, Dr. P. Ilanchezhiyan, Dongguk University, South Korea, Dr. N. Krishna Chandar, KTH Sweden for their help and cooperation. The author is extremely thankful to his colleagues Mr. R. Thangappan, Mr. B. Kuppulingam, Mr. S. Sugan and Mr. R. Mohankumar and other Research Scholars of Crystal Growth Centre and Centre for Nanoscience and Technology, for their kind support. The author expresses his heartfelt thanks to his parents, brothers and friends who have been inspiring behind all his advancements and thank God above all.

DHINESH KUMAR R
