ACKNOWLEDGEMENT

It is a pleasure to thank many people who made this thesis possible.

It is difficult to overstate my gratitude to my Supervisor and Guide, Dr. V. Premalakshmi M.Sc., M.Phil., Ph.D., Assistant Professor, Department of Horticulture, Agricultural College and Research Institute, Madurai. With her enthusiasm, her inspiration, and her great efforts to explain things clearly and simply made it easy. Throughout my thesis writing period, she provided encouragement, sound advice, good teaching and lots of good ideas. I would have been lost without her.

I sincerely thank Dr. N. Geetha, Professor and Head, Department of Biotechnology, Mother Teresa Women’s University, Kodaikanal, for her kind support in completing the thesis.

My sincere thanks to Dr. L. Sivakumar, General Manager, SKM Siddha and Ayurveda Company, Erode, for providing the required research facilities, contributing his time and ideas and making my Ph.D experience productive and stimulating.

Words fail me as I express my heartfelt thanks to my friends Mrs. A. Malini and Mrs. R. Shanthi Selvan for their co-operation in completing this work. My research would not have been possible without their help.

I wish to express my deep sense of gratitude to Dr. R. Sampathraj for his help in conducting animal studies.

I extend my thanks to Dr. V.R. Mohan, Associate Professor, for his valuable suggestion in phytochemical studies their valuable support.

I extend my thanks to Dr. S. Sengottuvelu, Professor, Department of Pharmacology, Nandha College of Pharmacy, Erode, for his help in conducting animal studies.
I thank Dr. R. Duraisami, Professor, Department of Pharmacognosy, Nandha College of Pharmacy, Erode, for his valuable suggestion in phytochemical studies.

I am very thankful to Dr. T. Rajan, Associate Professor and Head, Department of Biochemistry, Muthayammal College of Arts and Science, Rasipuram, for his valuable suggestions and encouragement in completing this dissertation successfully. I am also thankful to Mr. M. Senthilkumar, Manager, Quality assurance, SKM Siddha and Ayurveda Company, Erode, who made available his support in a number of ways.

I owe my indebtedness to my colleagues, Department of Biochemistry, Vellalar College for Women, Erode, for their help in the conduct of this study.

My deepest gratitude goes to my family for their unflagging love and support throughout my life; but for their help and encouragement this dissertation would not have seen the light of day. Mere words alone will not suffice to express what I owe them for their encouragement and patient love. I am bound to mention the sacrificial love of my husband, Mr. Ba. Vasu M.B.A., M.Phil., and the undemanding care of my mother which made me love my research life.

Last, but not the least I thank the almighty for his blessings throughout my research.

(R.KAVITHA)
