ACKNOWLEDGEMENT

Mere words cannot really acknowledge the infinite help given to me to complete my research endeavour. I must make an attempt and express my deepest gratitude starting with God Almighty who in His infinite mercy has guarded and guided me through life and this my research study.

I am grateful to the Mother Teresa Women's University its Vice Chancellor Dr .K. Manimekalai, the Registrar, the Controller and the Faculty members for their unstinted advice and encouragement.

The most important of all is my guide Dr.V.Rajeswari whose erudition and expertise have been the corner stone and success of research study. Her patience and her sincere efforts and guidance have given me the right direction and the knowhow to bring in relevant inputs and keep out the unimportant and the unnecessary. She has scrupulously directed my research efforts and has minutely scrutinised my work offering invaluable advice and research knowledge. I am extremely grateful to you, Madam, for making my research study soul satisfying and pleasurable.

I take this opportunity to thank Dr.Punithambal who sowed the seeds of research in me having been my guide for the M.Phil degree. She has also been a constant source of inspiration putting me through the paces of research from time to time. I whole heartedly thank you, Madam.

Whatever may be the researcher's effort the crucial findings rest with statistical analysis and unless one is an expert in statistics and logical reasoning, the rejecting or accepting of hypotheses will not have pertinence. I am most grateful to Dr.Ravanam who has computed my findings through the SPSS software and has also helped me to draw valuable inferences from my study. I am sincerely grateful to you, Sir.

A researcher cannot proceed unless permitted by his /her employer to do so. In this I am very fortunate in having our former correspondent Mr.M.A. Selvaraj of MCTM Schools and Mr. Tarun Ghai, Secretary of the
same schools who have had the greatness of mind to encourage their employee to gain further academic excellence. I thank you, Sirs, for your kind permission to me to do research.

Knowledge to be well received needs to be well expressed. The rose by any other name may smell as sweet but an idea or a message through research needs to be expressed with a choice of right words in the right sequence. I whole heartedly acknowledge the priceless help given by Price Philip Rajaiah Institute of Continuing Education Pvt. Ltd and its Chairman Dr. Jamuna Kalyani Shridaran in helping me with an uninterrupted flow of words.

The words to take shape needs the deft touch of the typist even when typing on a key board. I am grateful to Mr. Selvakumar who has helped proper alignment as per the norms of thesis writing.

I am grateful to my parents late Mr. M.M.Chinnandar and Mrs. Arasathirumagal Chinnandar for bringing me into this world, giving me the education and supporting me to reach this level in academics.

As much if not more of a stalwart supporter has been my better half, the best husband that one who could have wished for, Dr. S. Chandrasekaran who has been my role model for hard work, sincerity and humaneness. He has been my constant source of inspiration and my true friend, philosopher and guide. Along with him I am grateful to my sister, my brother, my sons C.P.Thamaraimannan and C.P.Sundaravadiel and my niece V. Vanmathy, V. Velvizhi and Harshini Babu who in their own inimitable ways have helped me to write and submit my thesis.

Finally, I am grateful to each and every person who has in some way or the other extended their advice and help and which in turn has helped me complete my research study. I say thank you to all and may these words reverberate through the ages and be remembered as having been permanently etched in my mind.

(C. PONMUDI)
