ACKNOWLEDGEMENTS

I am particularly grateful to Dr. O.S. Chauhan my supervisor, whose professional supervision, scrupulous comments, valuable ideas and support at all levels has motivated me to pursue good science. He has provided an ideal atmosphere to work and experiment. I am obliged to say that without his patient guidance and encouragement this work could have not been a reality. His patience with me is sincerely treasured.

I sincerely thank my University Co-guide Prof. K. Mahender, Reader, Department of Earth Sciences for his constant supervision, support, encouragement, and valuable advice.

I sincerely thank Prof. Michael Sarnthein Institut fuer Geowissenschaften, University of Kiel, Germany for his scholarly insights and very valuable comments and keen interest in my research work. He was instrumental in getting done the stable isotope data, and for his inspiring influence on my research career.

My sincere thanks to Dr. S.R. Shetye. Director, NIO, Goa, for providing necessary research infrastructure, communication facilities and encouragement. Dr. Rajiv. Nigam Head, Geological Oceanography Division, NIO, Prof. A.G. Desai, Head, Department Earth Sciences, Goa University, and Dr. T.A. Vishwanath Vice Chancellor’s nominee are thanked for being source of inspiration and constant encouragement.

I am obliged to Prof. Elke Vogelsang, Institut fuer Geowissenschaften, University of Kiel, Germany, Dr. K. Kusumgar Physical Research Laboratory, Ahmedabad and Dr. B.S. Sukhija National Geophysical Research Institute, Hyderabad, who provided me with the radiocarbon ages.
I am greatly indebted to Mr. Andrew Menezes, Mr. S.P. Sharma, Dr. A. Mascarenhas, Dr. J.N. Pattan, and Dr. B. Nagendernath for several discussions on the data and going through the chapter despite of their busy schedules.

Sincere thanks to Dr. V. Ramaswamy for teaching me techniques to use MALVERN MASTER SIZER 2000 and many fruitful discussions.

The financial assistance in the form of fellowship was bestowed by The Council of Scientific and Industrial Research (CSIR), New Delhi, for the Senior Research Fellowship for the last 2 years.

A special note of thanks is due to Mr. Sanjay Desai for helping me with Laboratory analysis, which was vital for completion of the thesis.

Mr. Girish Prabhu is thanked for the XRD analyses. I am very grateful to Mr. Arun Mahale Head, Drawing section and his team (Mr. S. Akerkar, Mr. R. Uchil, Mr. P. Pawaskar and Mr. U. Javali) for preparing illustrations.

I thank Dr. M. Tapaswi, Documentation officer and Mr. G. H. Sainekar for the encouragement and the library help.

I am grateful to Dr. Pratima Kessarkar, Ms. Shradha Nagvekar, Ms. Ramila Furtado, Ms. Sahana Hegde, Ms. Sujata Kurtarkar and Mr. M. Abhijet for helping me during the final stages of my thesis work. My sincere thanks are due to my friends Mrs Alison. S. and Ms Sonali. Naik for their help in many little things.

I would like to apologise to all those I have not mentioned by name, and thank them as well.

I take this opportunity to thank my family for their ever-loving support, patience and encouragement towards my work. Finally, special acknowledgement is also due to Mrs. Veena Chauhan and Mr. Abhishek Chauhan for their love, support and untiring encouragement. No words can
express my appreciations and gratitude towards my sister Ms. Suvartha Hiremath. It was all these wonderful people, who gave full cooperation without which it would not have been possible for me to complete the thesis work successfully. I couldn't have made the thesis without 'you' all.

(Suneethi J.)
