<tr>
<td>Table-1.1</td>
<td>Economically important fauna of mangrove ecosystem of Andaman and Nicobar Islands</td>
<td>12</td>
</tr>
<tr>
<td>Table-1.2</td>
<td>Major uses of mangroves in some countries</td>
<td>14</td>
</tr>
<tr>
<td>Table-1.3</td>
<td>Properties of mangrove wood</td>
<td>15</td>
</tr>
<tr>
<td>Table-1.4</td>
<td>Mangrove-based products</td>
<td>22</td>
</tr>
<tr>
<td>Table-1.5</td>
<td>Approximate mangrove areas in various countries</td>
<td>32</td>
</tr>
<tr>
<td>Table-1.6</td>
<td>World distribution of mangrove species</td>
<td>34-35</td>
</tr>
<tr>
<td>Table-1.7</td>
<td>Area wise distribution of mangroves in India</td>
<td>38</td>
</tr>
<tr>
<td>Table-1.8</td>
<td>Distribution of mangrove species in India</td>
<td>43-44</td>
</tr>
<tr>
<td>Table-2.1</td>
<td>Growth of population in Goa</td>
<td>58</td>
</tr>
<tr>
<td>Table-2.2</td>
<td>Mangrove area along various estuaries in Goa</td>
<td>60</td>
</tr>
<tr>
<td>Table-2.3</td>
<td>Average climatological conditions at Marmagoa (Goa)</td>
<td>62</td>
</tr>
<tr>
<td>Table-2.4</td>
<td>Details of depressions/ cyclonic storms that affected Goa coast</td>
<td>63</td>
</tr>
<tr>
<td>Table-2.5</td>
<td>Tidal amplitude along central west coast of India</td>
<td>64</td>
</tr>
<tr>
<td>Table-2.6</td>
<td>Mangroves in various salinity zones along Terekhol estuary</td>
<td>72</td>
</tr>
<tr>
<td>Table-2.7</td>
<td>Natural regeneration of mangroves along Terekhol estuary of Goa</td>
<td>73</td>
</tr>
<tr>
<td>Table-2.8</td>
<td>Mangroves in various salinity zones along Chapora estuary</td>
<td>79</td>
</tr>
<tr>
<td>Table-2.9</td>
<td>Natural regeneration of mangroves along Chapora estuary of Goa</td>
<td>80</td>
</tr>
<tr>
<td>Table-2.10</td>
<td>Mangroves in various salinity zones along Mandovi estuary</td>
<td>86</td>
</tr>
<tr>
<td>Table-2.11</td>
<td>Natural regeneration of mangroves along Mandovi estuary of Goa</td>
<td>87</td>
</tr>
<tr>
<td>Table-2.12</td>
<td>Mangroves in various salinity zones along Zuari estuary</td>
<td>93</td>

Table-2.13 Natural regeneration of mangroves along Zuari estuary of Goa 94
Table-2.14 Mangroves in various salinity zones along Cumbarjua canal 98
Table-2.15 Natural regeneration of mangroves along Cumbarjua canal of Goa 99
Table-2.16 Mangroves in various salinity zones along Sal estuary 103
Table-2.17 Natural regeneration of mangroves along Sal estuary of Goa 104
Table-2.18 Mangroves in various salinity zones along Talpona estuary 108
Table-2.19 Natural regeneration of mangroves along Talpona estuary of Goa 109
Table-2.20 Mangroves in various salinity zones along Galgibag estuary 113
Table-2.21 Natural regeneration of mangroves along Galgibag estuary of Goa 114
Table-2.22 Relative dominance of mangrove species along estuaries of Goa 127
Table-2.23 Comparative state of natural regeneration of mangroves along different estuaries in Goa 128
Table-3.1 Area of Islands comprising Middle Andaman Forest Division 138
Table-3.2 Number of rainy days and rainfall recorded at Port Blair 141
Table-3.3 Temperature at Port Blair 142
Table-3.4 Relative humidity recorded at Port Blair 143
Table-3.5 Monthly mean wind speed at Port Blair 144
Table-3.6 Tidal amplitude at Port Blair 146
Table-3.7 Mangrove distribution in Bajalungta Forest Range 155
Table-3.8 Mangrove distribution in Bakultala Forest Range 156
Table-3.9 Mangrove distribution in Rangat Forest Range 157
Table-3.10 Mangrove distribution in Betapur Forest Range 158
Table-3.11  Mangrove occurrence in Long Island Forest Range  
Table-3.12  Zonation in mangroves of Middle Andaman  
Table-3.13  Natural Regeneration of mangroves in Bajalunga Forest Range  
Table-3.14  Natural Regeneration of mangroves in Bakultala Forest Range  
Table-3.15  Natural Regeneration of mangroves in Rangat Forest Range  
Table-3.16  Natural Regeneration of mangroves in Betapur Forest Range  
Table-3.17  Natural Regeneration of mangroves in Long Island Forest Range  
Table-3.18  Results obtained on estimation of area under mangroves using toposheet coupled with ground truthing  
Table-3.19  Forest range wise mangrove area  
Table-3.20  Stand structure and growing stock of mangroves in Bajalunga Forest Range  
Table-3.21  Stand structure and growing stock of mangroves in Bakultala Forest Range  
Table-3.22  Stand structure and growing stock of mangroves in Rangat Forest Range  
Table-3.23  Stand structure and growing stock of mangroves in Betapur Forest Range  
Table-3.24  Stand structure and growing stock of mangroves in Long Island Forest Range  
Table-3.25  Mangrove occurrence in different forest ranges of Middle Andaman Forest Division  
Table-3.26  World wide distribution of the mangroves  
Table-3.27  Distribution of mangroves in India  
Table-3.28  Distribution of mangroves in Andaman and Nicobar Islands  
Table-3.29  Comparative state of natural regeneration of mangroves in different ranges of Middle Andaman Forest Division
Table-3.30 Exploitable growing stock of mangroves in different forest ranges of Middle Andaman Division 225
Table-3.31 Mangroves stems and yield in Middle Andaman 230
Table-3.32 Extraction figures of mangroves in different divisions 233
Table-4.1 Flowering and fruiting period in mangroves of Middle Andaman 244
Table-4.2 Period of flowering and fruiting of mangroves in Goa 246
Table-4.3 Characteristics of fruits/seeds and propagules of mangroves in Middle Andaman 251
Table-4.4 Propagule producing mangroves and the characteristics of mature propagules 253
Table-4.5 Fruit producing mangroves and characteristics of mature fruits and seeds 254
Table-4.6 Germination characteristics in mangroves of Middle Andaman 258
Table-4.7 Phenological observations on mangrove species 261
Table-5.1 Mangrove plantations in Goa 274
Table-5.2 Cost of raising mangrove seedlings in the nursery 286
Table-5.3 Cost of raising mangrove plantations by using direct planting method 286
Table-5.4 Survival percentage and growth performance in one year old mangrove seedlings in nurseries of Goa and Middle Andaman 291
Table-5.5 Survival percentage of mangroves in experimental plantations of Goa and Middle Andaman 296
Table-5.6 Height and survival percentage of wildings 306
Table-5.7 Natural zonation in estuarine mangroves of Goa 313
Table-5.8 Germination and survival percentage of Ceriops tagal at different depth of sowing 316
Table-6.1 Mangrove related offence cases in Middle Andaman 326
Table-6.2  Guidelines for the selection of mangrove areas for preservation, conservation, declaration of forest reserves and release for agriculture/aquaculture use 361

Table-6.3  Arrival of domestic and foreign tourists in Andaman and Nicobar Islands 372
