I would like to express indebtedness to my esteemed guide Prof.(Miss) U. H. Patel whose influence has been the most important not only as a teacher but at every stage of my hardest moment in my life. She has always been my backbone, my pillar of strength under all odds. She has sacrificed her own personal responsibility and spared her precious time for helping me in my doctoral research work. This doctoral research work is the result of her constant encouragement, affections and persuasion.

No matter how much I write or say, words always fall scantily to express my gratitude towards late Prof. L M Anjaria, former Head of Physics Department, V P Science College, V V Nagar. I can not control my tears to acknowledge him. I express, most respectfully, my heartfelt thank to him at this stage. May his soul rest in peace.

My thanks are due to Head of Department of Physics, Sardar Patel University for providing me with the excellent laboratory facilities in the Department to pursue my research work, granting me necessary permission and encouraging for UGC Teacher Fellowship under FIP Programme. I am greatly indebted to him.

I would also like to thank former Principal late Dr D A Raval, Natubhai V. Patel College of Pure and Applied Sciences, V V Nagar, Former Principal Mr. P S Shah, Dr. Y M Dalal, Mr. I G Shaikh, Dr. R U Purohit and Acting Principal Mr. Piyush Pandya, Gujarat Arts and Science College, Ahmedabad, for their unstinting support and co-operation.

My earnest appreciation to Prof.(Miss) B.H. Patel and Dr.(Miss) R. H. Patel for their valuable suggestions, constant involvement, encouragement and moral support throughout the entire work.

In a special way I would like to thank to University Grant Commission, Pune, for awarding me a Teacher Fellowship under FIP Programme to carry out my research work.

The present work would have not been completed without the co-operation of Higher Education commissionarate office, Gandhinagar. My sincere thanks to Higher Education commissioner for allowing me necessary permission to carry out my research work under FIP Programme of UGC Teacher Fellowship.

My special thanks go to my friend Mr. Bharat Patel, and labmates Mr. Pinal Patel, Mr. Sahaj Gandhi, Mr. Shailesh Karanavat for helping me by all means, without their help it would have been difficult for me to undertake
this task. It gives me an immense pleasure to express my heartiest regards to them.

Research is never the product of the contribution of a person but one born out of team effort, for many people contribute to making it worthwhile. I am thankful to all my teachers, friends, and students on the campus who helped directly or indirectly in this research work. Many thanks to them indeed.

My thanks are also due to Dr. Dhaval A. Shah, Dr. Hardik Joshipura and their research guide late Dr. C G Dave from organic synthesis laboratory, M G Science Institute, Ahmedabad, for providing organic compounds to carry out the research work.

My colleagues and co-researchers Mr. H A Patel, Mr. J H Yagnik, Mr. R H Patel, Mr. H L Padia and Miss Tanvir Malek, Mr. Chintan Jotaniya, Mr. Rinkesh Barot, Mrs. Shreelatha Nair, Mr. Mayank Shah and Mr. Hitesh Patel also deserve special thanks from me for their help and co-operation. I also extend my thanks to Mr. Narendra Chauhan, IPR, Gandhinagar for taking Crystal photographs.

The technical support and wholehearted co-operation from University Science and Instrumentation Centre (USIC), Sardar Patel University, V V Nagar are duly acknowledged.

I am grateful to Dr. E. Suresh, CSMCRI, Bhavnagar and Dr. Babu Varghese of RSIC, IIT Madras, for helping us in collecting intensity data of the crystals.

How can I forget family members for showing tremendous patience and support to fulfill my life’s desire? especially my mother and sisters’ loving care and help are gratefully acknowledged. I would like them to know that their generous support is etched in my heart.

Whatever success I have achieved in life after marriage owes itself to the caring support I have received from my better half, Jyotsna, who spared time from her life as a housewife to stand by me with extreme patience in support of my academic work. I want her to know that I value her care and thank her for helping me complete my work uninterruptedly. At this stage, eager eyes of my kids Atreyi and Divyendu give me a lot remembrance of them.

At last I bow to the almighty for the ever blessedness showered upon me.

Vallabh Vidyanagar
