LIST OF FIGURES

Figure 4- 1 : Factors affecting Influence of Children in Decision Making ...............................46
Figure 4- 2 : Components of Child’s Consumer Socialization ........................................64
Figure 4- 3 : Parental Consumer Teaching Modes ..................................................69
Figure 5- 1 : Conceptual Model for the study .......................................................................106
Figure 7- 1 : Gender based composition ..................................................................................136
Figure 7- 2 : Chart showing Frequency distribution of the Age Groups ............................137
Figure 7- 3 : Chart showing Gender and Age of the child ..................................................138
Figure 7- 4 : Frequency Chart for Number of Children in the family ..................................138
Figure 7- 5 : Income Group Classification ..............................................................................140
Figure 7- 6 : Medium of instruction at school and Income level classification ...............142
Figure 7- 7 : Sample classification based on Family Structure .........................................143
Figure 7- 8 : Frequency of Outing on different Occasions ..................................................145
Figure 7- 9 : Child’s frequency of outings based on Gender ...............................................147
Figure 7- 10 : Most preferred Option for the Child to spend time ....................................149
Figure 7- 11 : Least Preferred Option for the Child to spend time ....................................149
Figure 7- 12 : Child’s Most Preferred Option to go out for Shopping ................................151
Figure 7- 13 : Child’s least preferred option to go out for Shopping ..................................151
Figure 7- 14 : Child’s Most Favourite Dressing Style ......................................................153
Figure 7- 15 : Child’s least liked Dressing Style .................................................................153
Figure 7- 16 : Child’s Preference for being like ....................................................................155
Figure 7- 17 : Child’s Least Preference for being like .........................................................155
Figure 7- 18 : Most Influential Agent for the Child ............................................................157
Figure 7- 19 : Least Influential Agent for the Child ............................................................157
Figure 7- 20 : Child’s Highest Preferred Option for Watching TV with ............................159
Figure 7- 21 : Child’s Lowest Preferred Option for Watching TV with ............................159
Figure 7- 22 : Maximum gifts received ..................................................................................161
Figure 7- 23 : Minimum gifts received ..................................................................................161
Figure 7- 24 : Party having highest influence on the child .................................................163
Figure 7- 25 : Party having lowest influence on the child ................................................163
Figure 7- 26 : Child’s most preferred option to share feelings ..........................................165
Figure 7- 27 : Child’s least preferred option to share feelings ..........................................165
Figure 7- 28 : Time spent by the parents ..............................................................................166
Figure 7- 29 : Parents’ approach towards pocket money allowance ..................................167
Figure 7-30: Satisfaction level with the pocket money allowance
Figure 7-31: Purchase of various products by children
Figure 7-32: Pesterin during different festivals/occasions
Figure 7-33: Influence of different advertising media on children
Figure 7-34: Influence of important advertising medium on children
Figure 7-35: Influence of children on various purchase related decision areas
Figure 7-36: Location of requests by the child
