ACKNOWLEDGEMENTS

I am heartily thankful to my supervisor Dr. K. Chenna Kesava Reddy, Principal & Professor in E.C.E, Jyothismati College of Engineering and Technology, whose encouragement, supervision and support from the preliminary to the concluding level enabled me to develop an understanding of the subject.

I would like to express my deep and sincere gratitude to my Co-Supervisor Dr. Syed Abdul Sattar, Prof. & Dean of Academics Royal Institute of Technology and Science. His wide knowledge and his logical way of thinking have been a great value for me. His understanding, encouraging and personal guidance have provided a good basis for the present thesis. This thesis is based on ‘5’ years of research. During the course of the research I have been helped by many individuals.

During this work I have collaborated with many colleges for whom I have great regard, and I wish to extend my warmest thanks to all those who have helped me with my work. Without their support it would have been impossible for me to finish this work.

I am forever indebted to my parents for their understanding endless patience and encouragement when it was most required. For their constant support and encouragement in all my professional endeavors.
