Acknowledgement

I am highly thankful to my companion God Almighty authority, Supreme Soul (Shivbaba) for always being with me together and removing all obstacles from my path and empowering me with powers, unconditional love and bliss.

I have immense pleasure in expressing my sense of gratitude to my esteemed guide Dr. Padamnabhi Shanker Nagar for his flawless guidance and systematic criticism during the present investigations. I am indebted to him for the many privileges and boundless compassion showered upon me throughout the research tenure. I run short of verbal expressions to encapsulate my feelings for him.

I am highly grateful to my Mother, Brother (Sagar) and Father for always being highly supportive and my whole Brahmakumaris family (The World Spiritual University).

I am profoundly indebted to our respected Prof. Arun Arya, the present Head, Department of Botany, Faculty of Science, for extending all the laboratory facilities to me.

The support and help rendered by Dr. Bupesh Patel, Gujarat Ayurvedic University, Jamnagar and Dr. Hariom Gupta, Govt. Ayurvedic Pharmacy College, Vadodara for collaborative clinical studies, historical background are of immense help for my research study. They also helped me in understanding Ayurvedic concept on Yashimadhu.

I am highly thankful to Dr. Kishore Rajput, Department of Botany, M. S. University for assisting in anatomical studies and its interpretation.

I am highly obliged to Dr. Sunita Shailajan, Department of Botany, Ramananian Ruia College, Mumbai for constant HPTLC analysis, encouragement and inspiration throughout the tenure. Thanks to Neelam

I am highly obliged to Dr. Laxnipriya Nampoothri, Department of Biochemistry, The M.S. University, for the toxicological analysis, encouragement and inspiration throughout the tenure.

I am highly thankful to Dr. Shasikumar Menon, Therapeutic Drug Monitoring Lab, Mumbai for their unconditional and ever helpful nature especially in the last phase of the tenure. His help in analysing the LC-MS data was of profound use in interpretation.

The assistance rendered by Prof. Anamik Shah and Ms. Madhvi Patel for unconditional use of analytical instrument at Department of Chemistry, Saurashtra University was the most important assistance all along my research tenure owing to which I could do my most of Phytochemical Analysis (HPLC, GC-MS, LC-MS, Elemental analysis).
I am even thankful to Himmat Kaka, Maruti More and Paresh Patil for the cultivation of *Taverniera cuneifolia* and collection and for the necessary ecological information.

The assistance rendered by Prof. M. Daniel and Dr. Denni M. Daniel for their valuable inputs and teaching the basic phytochemistry were of profound use. I am indebted to him. I am also thankful to the non-teaching staff members of our department for the assistance they provided.

I am highly thankful to Dr. Bharat M. Vyas, Department of Biosciences, Saurashtra University for assisting in analyzing the Proteins in the plant extract.

Last but not the least my special thanks to my labmates Dipak, Gagandeep, Karan and Mital and all my departmental research scholars.

Thanks are also due to all those who have not been mentioned by name but nevertheless have been of invaluable help in their inscrutable ways.

(Poonam S. Mangalorkar)
