ACKNOWLEDGEMENT

To ALLAH, I bow my head and heart, who blessed me with the courage, the
guidance, and the love to successfully complete this research, and indeed, throughout my
life. May your name be exalted, honored, and glorified.

My research and thesis would have not materialized if I did not have love, support
and encouragement from a number of people. Their words and suggestions often boosted
my courage and determination to write this thesis. It is a pleasure to convey my gratitude
to them all.

Foremost, I would like to express my sincere gratitude to my advisor Prof. (Dr.)
Ghansham B. Dixit for having accepted me as his student and giving me free reign to
develop my research, for his invaluable guidance, encouragement, advice and support.
His guidance helped me in all the time of research and writing of this thesis. I could not
have imagined having a better advisor and mentor for my Ph.D study. No words can
express my sincere and deep sense of reverence for him. I am certain that the guidance
and training provided by him has laid a foundation for my future success.

I wish to offer my sincere thanks to Prof. S. S. Kamble, Head, Department of
Botany for providing me all the facilities to carry out the research work.

I deeply owe my thanks to Prof. B. A. Karadge, former Head of Botany for his
kindness, for giving me a chance to work with Dr. G. B. Dixit and for his helpful and
useful advice throughout the study.

I am immensely indebted to Prof. S. R. Yadav for his constant encouragement and
ardent interest shown during the progress of the work and for the collection and
identification of the plant material.

I am heartily thankful to Dr. V. A. Bapat, INSA Senior Scientist, Department of
Biotechnology, Shivaji University, Kolhapur for his helpful advice.

It gives me a great pleasure to express my deep sense of gratitude and
indebtedness to Prof. P. D. Chavan, Prof. (Mrs.) A. B. Sabale, Dr. (Mrs.) M. M. Dongare,
Dr. (Mrs.) N. S. Chavan, Dr. D. K. Gaikwad, Dr. R. V. Gurav, Dr. N. B. Gaikwad, Dr.
(Mrs.) V. S. Rathod, Dr. K. B. Pawar, Mr. Manoj Lekhak and all the other scientific and
non-scientific staff of the Department for their help, inspiring guidance and suggestions in carrying out the research work.

I would also like to gratefully acknowledge the support of some very special individuals like Dr. Swaroopa Ghatge and Dr. Vinayak Kedage. They helped me immensely by giving me encouragement and friendship. Especially Dr. Swaroopa, for being my support system, for taking her time to listen to everything that I have to say, for making me laugh when I’m nearing a tearful breakdown... and for the countless other reasons. It is indeed a blessing to be able to know a person like you. Thanks dear, for your love.

It is a pleasure to express my gratitude wholeheartedly to my seniors Dr. Mansingraj Nimbalkar, Dr. Sandeep Pai and Dr. Nilesh Pawar for their advice and their willingness to share their bright thoughts with me, which were very fruitful for shaping up my ideas and research. My Special thanks again to Dr. Mansingraj Nimbalkar for his enormous help in the learning of RAPD technique.

I record my appreciation and heart-felt thanks to Dr. Sheela Fernandes for her love, care, support and encouragement.

I would like to thank some of my best friends Vidya, Anu, Farheen, Firdous, Asiya and Basheera who helped me in my progress through their friendship.

My heartfelt thanks to my roommates Uzma, Savu, Sheetal, Dipti, Vaishu, Rohini, and Archana for the support, encouragement, concern, laughter, and for all the fun we had.

Sincere thanks also to all my friends in the Department especially Vaishu, Aru, Vandana, Resham, Kranti, Swapnaja, Anjali, and Swaroopa for their kindness and moral support during my study. Especially to Vaishu, for the love and friendship - thanks dear, from the bottom of my heart.

Thanks also to Parth, Jay, Babu, Niwas, Vish, Makrand, Kumar Vinod, Shakeel and Sajid for the wonderful friendship and help during the progression of this research. It was nice time with you people.

My gratitude also goes to Mr. Subhash Kudale and Prof. Neetin Desai for the help in HPLC analysis.

My fieldwork received enormous assistance from many Malis. It is impossible to mention all of them here, but I am very much thankful to Ananda mama for his help in
cultivation of the Delphinium. I would also like to gratefully acknowledge the help of Mr. Sunil Chavan, Mr. Mahesh Mane and Mr. Sachin Nimbalkar.

It is a pleasure to pay tribute also to the Ghatge family, Dixit mam and Amit jiju for their kindness and good wishes. Lots of love to my little babe Apeksha.

I am sincerely grateful to the financial support provided by University Grant Commision (UGC) fund, which enabled me to complete my Research work.

Last of all, but most importantly, I would like to express my gratitude to few persons who have motivated me since I was introduced to the alphabet. I am grateful and proud of my grandma, she always wished good things for me. Although she is no longer with us, she is forever remembered. I am sure she shares our joy and happiness in the heaven. May Allah rest her soul in peace. I would also like to express my gratitude to my uncles and my aunts. I cannot forget their kind care and their interest in my success. Their prayers and moral support have always boost my progress.

To all my dearest cousin brothers and sisters, a big thank you for their support and encouragement and for putting colors in my life.

I reserve my final thanks for my wonderful family, especially to my dad for giving me the life I ever dreamed. He is an idol, friend and torch bearer in my life. I can’t express my gratitude for my mom in words, whose unconditional love has been my greatest strength. They are the reason I did this; they are the reason I thrived to be better. Their pride for me is my main goal in life.

Thanks to Tehmeena, Shakeb and Shifa for being supportive and caring siblings.

May Allah Bless You All with Well Being and Happiness……..THANK YOU!
