LIST OF TABLES

1. Completed irrigation projects of Kerala - Salient Features 80
2. Branch canalwise distribution of farmers 83
3. Locationwise distribution of farmers (Branch canal command) 84
4. Locationwise distribution of farmers (Outlet command) 84
5. Distribution of farmers based on farming nature 85
6. Occupation of the part-time farmers 85
7. Age of farmers 86
8. Farming experience of farmers 86
9. Reasons of farmers for involving in farming 87
10. Whether feel sorry for being farmers ? 87
11. Reasons for feeling sorry for being farmers 88
12. Land size of farmers who feel sorry for being farmers 88
13. Branch canal command of farmers who feel sorry for being farmers 88
14. Sex of farmers 89
15. Reasons for women in farming 89
16. Communitywise division of farmers 90
17. Different communities and land size categories 90
18. Education level of farmers 91
19. Division of farmers on the basis of land size 92
20. Land size of lower group farmers 92
21. Land particulars of farmers 94
22. Details of wetland and dryland holdings of farmers 95
23. Wetland cultivation area in different reaches 95
24. Dryland cultivation area in different reaches 97
25. Major crops cultivated in wetland
26. Major crops cultivated in dryland
27. Incomewise division of farmers
28. Location of different income groups
29. Institutionwise distribution of officials
30. Disciplinewise distribution of officials
31. Qualification of officials
32. Age of Officials
33. Total experience of officials
34. Experience of officials in the study area
35. Jurisdiction of officials
36. Whether have cultivation? (Response of officials)
37. Training status of officials - institutionwise
38. Training status of officials - disciplinewise
39. Training status of officials - levelwise
40. Reasons of officials for not attending training courses
41. Whether getting enough water? (Response of farmers)
42. Receipt of water and location
43. Officials' version about water availability
44. Non-availability of water: Reasons cited by farmers (ranked)
45. Non-availability of water: Reasons cited by officials (ranked)
46. Non-availability of water: Comparison of reasons of farmers and officials
47. Type of irrigation followed by paddy cultivators
48. Whether more irrigation means more yield? (Response of farmers of different reaches of branch canal command)
49. Whether more irrigation means more yield? (Response of farmers of different reaches of outlet commands)
50. Whether irrigation management possible only through participation of farmers? (Response of farmers)

51. Reasons of farmers for having participation

52. Whether irrigation management possible only through participation of farmers? (Response of officials)

53. Reasons of officials for having participation

54. Areas suggested by farmers for participation

55. Areas suggested by officials for participation

56. Three major factors hindering participation—ranked response of farmers

57. Three major factors hindering participation—ranked response of officials

58. Factors hindering participation: Comparison of responses of farmers and officials

59. Whether know the presence of any cooperative body in your locality? (Response of farmers)

60. Whether member of any cooperative body? (Response of farmers)

61. Whether heard of CADA? (Response of farmers based on branch canal command)

62. Whether heard of CADA? (Response of farmers based on farming nature)

63. If heard about CADA, what do you know about it? (Response of farmers based on branch canal command)

64. If heard about CADA, what do you know about it? (Response of farmers based on farming nature)

65. Whether CADA operational in Neyyar? (Response of farmers)

66. Whether heard of Warabandi system? (Response of farmers)

67. Whether Warabandi system operational in the command? (Response of farmers)

68. Whether Warabandi system will be successful in Kerala? (Response of officials)

69. Reasons of officials for considering Warabandi not successful

70. Whether benefited from CADA? (Response of farmers based on branch canal command)
71. Whether benefited from CADA? (Response of farmers based on branch canal reaches) 137
72. Whether benefited from CADA? (Response of farmers based on outlet command reaches) 137
73. Benefits accrued by farmers through CADA activities 138
74. Opinion of officials about CADA 139
75. Reasons of officials for considering CADA activities average and below 139

78. Details of senior positions of CADA with regard to their service periods 142
79. Suggestions of farmers for improving performance of CADA 143
80. Suggestions of officials for improving performance of CADA 144
81. Details of farmer associations studied 145
82. Whether know farmer association exist in your locality? (Response of farmers based on branch canal command) 145
83. Whether know farmer association exists in your locality? (Response of farmers based on farming nature) 145
84. Whether know the name of the association? (Response of farmers based on branch canal command) 147
85. Whether know the name of the association? (Response of farmers based on farming nature) 147
86. Whether know the year of formation of association? (Response of farmers based on farming nature) 149
87. Whether know the year of formation of association? (Response of farmers based on branch canal command) 148
88. Membership in farmer associations based on branch canal command 149
89. Membership pattern in different reaches of branch canal command 150
90. Membership pattern in different reaches of outlet command 153
91. Membership in farmer associations based on farming nature 153
92. Reasons for not joining the associations 154
93. Positions of members in the association 155
94. Whether remember the year of joining the association? 156
95. Whether know the approximate membership in the association? 156
96. How did you join the association? 156
97. Activities undertaken by the associations as known to the members 157
98. Opinion of members about their associations 158
99. Usefulness of farmer associations as felt by the members 159
100. Opinion of officials about the associations in general 159
101. Whether associations function as effectively as in the beginning? (Response of members of the associations) 160
102. Reasons of farmers for the ill-functioning of the associations 161
103. Reasons of officials for the ill-functioning of the associations 162
104. Whether performance of associations improve if officials are committed and efficient? (Response of officials institutionwise) 163
105. Whether performance of associations improve if officials are committed and efficient? (Response of officials disciplinewise) 163
106. Contributions that can be offered to associations, as expressed by farmers 164
107. Whether members of associations contribute to associations at present? 164
108. Reasons of the members for not contributing to the associations 165
109. Measures to improve the performance of the associations, as suggested by farmers 166
110. Measures to improve the performance of the associations, as suggested by officials 167
111. Whether require somebody to catalyse participation? (Response of farmers) 169
112. Who will be a good catalyst? (Response of farmers) 169
113. How long the catalyst should remain? (Response of farmers) 169
114. Whether know the existence of canal committee in your area? (Response of farmers) 171
115. Understanding of farmers about the functions of canal committee 171
116. Whether canal committees function as expected? (Response of farmers) 172
117. Reasons of farmers for the nonfunctioning of canal committees as expected 172
118. Whether canal committees effective in attaining objectives? (Response of officials) 173
119. Details of canal committee meetings held during 1989-92 (three years) 174
120. Suggestions of farmers for improving the performance of canal committees 175
121. Suggestions of officials for improving the performance of canal committees 176
122. Whether Project Committee effective? (Response of officials) 177
123. Details of Project Committee meetings held during 1989-92 (three years) 178
124. Whether in contact with officers of CADA and Department of Irrigation? (Response of farmers) 186
125. Whether in contact with the officers of engineering discipline of CADA and Department of Irrigation? (Response of farmers) 189
126. Whether in contact with the officers of non-engineering disciplines of CADA? (Response of farmers) 190
127. Whether the officers of engineering, whom in contact, upto expectation? (Response of farmers) 191
128. Whether the officers of non-engineering disciplines, whom in contact, upto expectation? (Response of farmers) 191
129. Reasons of farmers for considering the senior/middle level officers of engineering not upto expectation 192
130. Reasons of farmers for considering the field staff of engineering not upto expectation 192
131. Reasons of farmers for considering the senior/middle level officers of non-engineering disciplines not upto expectation 193
132. Reasons of farmers for considering the field staff of non-engineering disciplines not upto expectation 193

XV

Prepared by BeeHive Digital Concepts Cochin for Mahatma Gandhi University Kottayam
133. Whether senior/middle or field level officers of engineering discipline more helpful? (Response of farmers) 194
134. Whether senior/middle or field level officers of non-engineering disciplines more helpful? (Response of farmers) 194
135. Whether the present officers capable of ensuring participation? (Response of farmers) 195
136. Reasons of farmers for considering present officers not capable of ensuring participation 195
137. Opinion of farmers about the statement that officials are more concerned with targets than results 196
138. Reasons of farmers for agreeing with the statement 196
139. How often the officials meet farmers? 197
140. Place preferred by officials to meet farmers 198
141. Problems faced by officials when dealing with farmers 198
142. Opinion of officials about other officials regarding their attitude towards participation of farmers 199
143. Motivating factors of farmers in the participation of them in irrigation management 200
144. Whether receives material incentives? (Response of farmers based on branch canal command) 201
145. Whether receives material incentives? (Response of farmers based on income level) 203
146. Types of incentives received by farmers 203
147. Whether satisfied with the present system of offering incentives? (Response of farmers) 204
148. Reasons of farmers for the dissatisfaction regarding supply of incentives 204
149. Whether more incentives means more participation? (Response of farmers based on farming nature) 206
150. Whether more incentives means more participation? (Response of farmers based on income level) 206
151. Reasons of farmers for considering that incentives influence participation 207
152. Reasons of farmers for ruling out the relation of incentives and participation of farmers 207
153. Whether incentives offered decide the rate of participation? (Response of officials)

154. Whether satisfied with the encouragement given by senior officials / Government? (Response of officials)

155. Whether incentives motivate officials to function more enthusiastically?

156. Response of farmers when they get poor yield and their neighbours get better yield - Response based on farming nature

157. Response of farmers when they get poor yield and their neighbours get better yield - Response based on income level

158. Whether any time discussed with neighbours who got better yield and visited their fields? (Response based on farming nature)

159. Whether any time discussed with neighbours who got better yield and visited their fields? (Response based on income level)

160. Reasons for not meeting other farmers to know their experiences

161. Whether others visited you to know about your success in farming? (Response of farmers based on farming nature)

162. Whether others visited you to know about your success in farming? (Response of farmers based on income level)

163. Whether noticed other farmers feel jealous of you? (Response based on farming nature)

164. Whether noticed other farmers feel jealous of you? (Response based on income level)

165. Outward expression of jealousy as observed by farmers

166. Opinion of farmers about the statement that the basic reason for non-cooperation is jealousy prevalent among farmers

167. Opinion of officials about the statement that the basic reason for non-cooperation is jealousy prevalent among farmers

168. Whether any religious / caste / community disputes in your locality? (Response of farmers)

169. Whether find difficulty to cooperate with farmers of other religion / caste / community?

170. Opinion of farmers about the statement that religious / caste differences weaken participation of farmers

xvii
171. Opinion of officials about the statement that religious / caste differences weaken participation of farmers

172. Whether any political clash / rivalry occurred in the locality? (Response of farmers)

173. Whether political differences weaken participation? (Response of farmers)

174. Whether political differences weaken participation? (Response of officials)

175. Whether face problems due to small size holdings? (Response of farmers)

176. Problems faced by farmers due to small size holdings

177. Whether interested in group farming? (Response of farmers based on land size)

178. Whether interested in group farming? (Response of farmers based on farming nature)

179. Reasons of farmers for the interest in group farming

180. Reasons of farmers for the disinterest in group farming

181. Causes for disputes as expressed by farmers

182. Whether noticed unauthorised tapping of water, breaking of structures etc.? (Response of farmers)

183. Reasons of farmers for unauthorised tapping of water
