Acknowledgements

The endless thanks goes to Lord Almighty for all the blessings he has showered upon me. During the period of my research I have been blessed with some extraordinary people who have spun a web of support around me. Words can never be enough in expressing how grateful I am to those incredible people in my life who made this thesis possible. I am deeply indebted to my research supervisor, Professor Dr. J. W. Bakal for presenting me such an interesting thesis topic. Each meeting with him added invaluable aspects to the implementation and broadened my perspective. He has guided me with his suggestions, lightened up the way in my darkest times and encouraged me a lot in the academic life. From him I have learned to think critically, to select problems, to solve them and to present their solutions. His drive for scientific excellence encouraged me to go for research in the latest research area of my interest. Sometime we are just (or incredibly) lucky!!! To get such wonderful, inspiring and motivating Guide. It was a great pleasure for me to have a chance of working with him.

I consider it a great honour to have been part of Kalsekar Polytechnic, and I salute the efforts of my Mentor Dr. Abdul Razzak Sir for his contributions towards furthering the cause of Indian innovations in ICT world. He has always been an inspiration and source of motivation for me to continue striving for research and keep learning. I would like to thank Mr. Anup Patil for His invaluable support and guidance. My deep gratitude towards Prof. Imran Inamdar for his support and encouragement. I would also like to thank Mr. Mayur Murkya for His valuable suggestions and all the technical discussions. I am also thankful to Prof. S.K Meenaji, Ph.D. Co-ordinator for his invaluable suggestions, guidance and encouragement.

There are so many known or unknown individuals, who have helped me directly or indirectly in this period. It is impossible to name each and everyone. My sincere thanks to all of them.

Faimida Munir Sayyad
