ACKNOWLEDGEMENTS

I consider it my privilege to have worked under Dr. S. C. Agrawal, Ph.D., F.B.S., Assistant Professor, Department of Botany, University of Saugar, Sagar. The present work could not have been accomplished but for his inspiring guidance, kind supervision, constant encouragement and planning.

In the analytical and thorough criticism of this study, Professor S. B. Saksena, F.N.A., Head of the Botany Department and Dean, Faculty of Life Sciences, University of Saugar, Sagar, has been a boon to me. I express my deep sense of gratitude to him for the facilities provided for the completion of this work.

I am grateful to Dr. M. Mouchacca, Paris, Dr. J. A. Von Arx and Dr. G. S. de Hoog, Netherlands, Dr. A. Johnston and Dr. P. M. Stockdale, England for the identification of some fungal isolates and to Dr. A. A. Padhye and Dr. L. Ajello, Atlanta, Dr. M. F. English, Bristol, Dr. E. G. V. Evans, England, Dr. H. S. Randhawa, Dr. S. K. Shome, Dr. A. K. Garg, New Delhi for providing literature and to Dr. D. P. Rogers, Illinois, for Latin diagnosis.

I owe my gratefulness to the Council of Scientific and Industrial Research, New Delhi, for having awarded me Senior Research Fellowship.

I also express my sincere thanks to my teachers and colleagues for their co-operation.

R. K. S. Kushwaha
