<tr>
<th>Condition</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Boils</td>
<td>A furuncles; an abscess.</td>
</tr>
<tr>
<td>Bone fracture</td>
<td>A broken bone.</td>
</tr>
<tr>
<td>Burning</td>
<td>Being affected with a sensation of heat.</td>
</tr>
<tr>
<td>Bronchitis</td>
<td>An inflammation on the air-passage.</td>
</tr>
<tr>
<td>Cataract</td>
<td>An opaque condition of the lens of eye, painless, unaccompanied by inflammation.</td>
</tr>
<tr>
<td>Chicken pox</td>
<td>A vesicular eruption of the body.</td>
</tr>
<tr>
<td>Cold</td>
<td>Coryza; Inflammation of mucus membrane of respiratory tract.</td>
</tr>
<tr>
<td>Colic</td>
<td>Abdominal distress due to the spasms or obstructions of intestine, gall bladder or ureter.</td>
</tr>
<tr>
<td>Cough</td>
<td>A sudden noisy expulsion of air from the lungs through glottis.</td>
</tr>
<tr>
<td>Convulsion</td>
<td>Any involuntary spasmodic contraction of the voluntary muscles of the body.</td>
</tr>
<tr>
<td>Conjunctivities</td>
<td>Inflammation of the conjunctive, the mucous membrane covering the eyeball and lining the eyelids.</td>
</tr>
<tr>
<td>Constipation</td>
<td>A condition, in which the bowels are evacuated at long intervals or with difficulty.</td>
</tr>
<tr>
<td>Deafness</td>
<td>Loss of hearing.</td>
</tr>
<tr>
<td>Diarrhoea</td>
<td>Frequent loose watery stools.</td>
</tr>
<tr>
<td>Diuretic</td>
<td>Drug induces or stimulates flow or urine.</td>
</tr>

<tr>
<th>Condition</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Diabetes</td>
<td>A wasting disease of metabolism, abundant sugar is present continuously in the urine.</td>
</tr>
<tr>
<td>Dropsy</td>
<td>An excessive collection of watery fluid in the tissues or the cavities of the body.</td>
</tr>
<tr>
<td>Dysentery</td>
<td>An infectious disease of which the chief symptoms are acute diarrhoea and discharge of mucus and blood.</td>
</tr>
<tr>
<td>Dysmenorrhoea</td>
<td>Painful or difficult menstruation.</td>
</tr>
<tr>
<td>Eczema</td>
<td>Skin disease accompanied by swelling, redness, exudation of lymph.</td>
</tr>
<tr>
<td>Elephantiasis</td>
<td>Skin disease caused by a tiny worm and attended with hypertrophy of the affected parts.</td>
</tr>
<tr>
<td>Epilapsy</td>
<td>A chronic nervous disorder marked by attacks of unconsciousness or convulsions.</td>
</tr>
<tr>
<td>Fever</td>
<td>Elevation of body temperature above the normal.</td>
</tr>
<tr>
<td>Goitre</td>
<td>A chronic enlargement of the Thyroid gland.</td>
</tr>
<tr>
<td>Gonorrhoea</td>
<td>An infectious venereal disease marked by an inflammatory discharge from the genital organs.</td>
</tr>
<tr>
<td>Insomnia</td>
<td>Disturbance in sleep.</td>
</tr>
<tr>
<td>Jaundice</td>
<td>A disease condition in which there is a yellowish staining of the tissue and excretions with bile.</td>
</tr>
