A. Chapter one: Introduction

1.1 Plant pathology and bacterial diseases 1
1.2 *Xanthomonas oryzae* pv. oryzae (Xoo) 2
1.3 Bacterial virulence factors 3
1.4 Theory of bacterial adhesion 20
1.5 Laboratory methods for the study of bacterial adhesion 21
1.6 Bacterial adhesion to plant surfaces 25
1.7 Entry of bacteria inside the host plants 29
1.8 Adhesion and entry of *Xanthomonas oryzae* pv. oryzae (Xoo) to rice leaves 34
1.9 Summary 35

B. Chapter two: Identification and generation of mutations in adhesin-like functions of *Xanthomonas oryzae* pv. oryzae (Xoo)

2.1 Abstract 37
2.2 Introduction 37
2.3 Materials and methods 40
2.4 Results 47
2.5 Discussion 77
C. Chapter three: Role of adhesin-like functions of *Xanthomonas oryzae* pv. *oryzae* (Xoo) in rice leaf colonization and entry

3.1 Abstract 95
3.2 Introduction 95
3.3 Materials and methods 98
3.4 Results 101
3.5 Discussion 123

D. Chapter four: Mutations in adhesin-like functions of *Xanthomonas oryzae* pv. *oryzae* (Xoo) exhibit virulence deficiency and show differential patterns of autoaggregation but do not affect in vitro adhesion of Xoo

4.1 Abstract 137
4.2 Introduction 137
4.3 Materials and methods 140
4.4 Results 144
4.5 Discussion 154
