Chapter 1
Introduction

1.1 What is EIA?
1.2 Goal and Objectives of EIA
1.3 Present Study
  1.3.1 Objectives of the Study
  1.3.2 Major Research Areas
1.4 Cross-national Comparison
1.5 Methodology
  1.5.1 Methodology of the Indian Study
  1.5.2 German Study of Wastewater Treatment Plant
1.6 Framework for Comparison

Chapter 2
History and Evolution of EIA

2.1 History of EIA
2.2 Environmental assessment
2.3 Legal Framework of EIA
2.4 Definition and Scope of EIA
  2.4.1 Definition of EIA
  2.4.2 Nature of EIA
  2.4.3 Diffusion
2.5 The EIA Process
2.6 Effectiveness of EIA System
2.7 Evaluation of Effectiveness of EIA System
2.8 Comparative review of EIA systems
2.9 The Characteristic of Legal Form
  2.9.1 Prediction
  2.9.2 Significance
2.9.3 Alternatives
2.9.4 Participation
2.9.5 Regulation of Decision Making

2.10 An Initial Evaluation
2.10.1 Information Theories
2.10.2 Cultural Theories

2.11 Summing Up

Chapter 3
Evolution of EIA Law and Policy in European Union

3.1 Introduction
3.2 Evolution of the EC Directive
3.3 The European Directive system
3.4 Arrangement for Key Stages
   3.4.1 Screening
   3.4.2 Scoping
   3.4.3 Review of Environmental Information
   3.4.4 Decision Making
   3.4.5 Summary of Findings of Key Stages
3.5 Policy and Legal Context
3.6 Implementation of the EC Directive
3.7 Quality Control in EIA
3.8 Effectiveness of the EIA Directive as a Whole
3.9 EC Report on EIA
   3.9.1 Introduction
   3.9.2 Summary of Findings
   3.9.3 Recommendations - Action to be taken
   3.9.4 Five-year Review on the Application and Effectiveness of the EIA Directive
3.10 The EIA Directive and the European Court of Justice (ECJ)
3.11 Some Issues
3.12 Recommendations
Chapter 4
EIA Law and Policy in Developing Countries

4.1 Introduction
4.2 EIA Systems of Developing Countries
4.3 Evaluation of EIA Procedures
4.4 Legal Basis of EIA Systems
4.5 Coverage of EIA Systems
  4.5.1 Consideration of Alternatives
  4.5.2 Screening
  4.5.3 Scoping
  4.5.4 EIA Report
  4.5.5 Review of EIA Reports
4.6 Decision Making
4.7 Monitoring and Auditing of Impacts
4.8 Mitigation of Impacts
4.9 Monitoring of EIA Systems
4.10 Costs and Benefits of EIA Systems
4.11 Summing Up
4.12 Comparison of EIA Laws and Policies in Developed and Developing Countries
  4.12.1 Some Important Observations

Chapter 5
Cross-national Comparison of EIA Legal Processes in India and Germany

Part 1 EIA Law and Policy in India
5.1 Introduction
5.2 Need for EIA
5.3 Integration within EIA
5.4 Indian Policies on EIA
5.5 Environmental Impact Assessment – Legal Provision
5.6 Legal Provision for Public Participation in India

5.7 EIA Cycle and Procedures
  5.7.1 Proposal Identification
  5.7.2 Screening
  5.7.3 Scoping
  5.7.4 Baseline Data
  5.7.5 Public Hearing
  5.7.6 Ensuring Effectiveness of Public Participation in India

5.8 Decision Making

5.9 Monitoring the Clearance Conditions

5.10 Components of EIA

5.11 Role of Different Agencies in EIA Process

5.12 Recent Changes in Legal Framework in India
  5.12.1 EIA Notification, 1994
  5.12.2 Amendments in the EIA Notification
  5.12.3 Amendment 2006

5.13 Major differences in EIA 1994 and EIA 2006

5.14 Summing Up
  5.14.1 Improvements Needed
  5.14.2 Public Participation
  5.14.3 Gradual Dilution of the Notification
  5.14.4 Ensuring Public Participation

Part 2 EIA Law and Policy in Germany

5.15 Introduction

5.16 Historical View
  5.16.1 Early Years
  5.16.2 Formal Implementation of EIA in Germany

5.17 EIA Act 2001
  5.17.1 Purpose of the Act (Article 1)
  5.17.2 Definition of Terms (Article 2)
  5.17.3 Scope of Application (Article 3)
  5.17.4 Determination of EIA Obligation (Article 3a)
5.17.5 Alteration and Extension of Projects Subject to EIA Requirements (Article 3e)
5.17.6 Development and Testing Projects Subject to EIA Requirements (Article 3f)
5.17.7 Primacy of Other Statutory Provisions (Article 4)
5.17.8 Steps in the Environmental Impact Assessment Procedure (Article 5)
5.17.9 Developer’s Documents (Article 6)
5.17.10 Participation of Other Authorities (Article 7)
5.17.11 Involvement of the Public (Article 9)
5.17.12 Secrecy and Data Protection (Article 10)
5.17.13 Summary Description of Environmental Impacts (Article 11)
5.17.14 Assessing Environmental Impacts and Taking the Results into Account in the Decision (Article 12)
5.17.15 Provisional Decision and Partial Approvals (Article 13)
5.17.16 Approval of a Project by Several Authorities (Article 14)
5.17.17 Integration into Procedures and Responsibilities

5.18 Stages in EIA Process
5.18.1 Project Designing and Consideration of Alternatives
5.18.2 Screening Criteria (EIA Act 2001)
5.18.3 Scoping
5.18.4 Preparation of Documents on the Environmental Effects

5.19 Public Participation
5.20 Review
5.21 Considerations of Findings in Decision-Making
5.22 Mitigation
5.23 Documentation and Monitoring
5.24 Details of the Act
5.25 EIA Procedure
5.26 Legal Questions Raised by EIA Procedure
5.26.1 Industrial Projects
5.26.2 Infrastructure Projects
5.27 Procedure for Planning Approval
5.27.1 Hearing
5.27.2 Advance Notice Procedure
5.27.3 Closing Date Procedure for Lodging Objections
5.27.4 Decisions on Planning Approval, Planning Consent
5.27.5 Planning Consent May be Issued in Place of a Planning Approval Decision Where
5.27.6 Legal Effects of Planning Approval
5.27.7 Changes to the Plan Before the Project in Finished
5.27.8 Annulment of a Planning Approval Decision
5.27.9 Coincidence of Several Projects

5.28 Legal Framework
5.28.1 The Environmental Impact Assessment Act
5.28.2 EIA Procedures in General
5.28.3 Scope and Applicability
5.28.4 Participation of the Public
5.28.5 Examination of Alternatives
5.28.6 Locus Standi
5.28.7 Aspects of the EIA Procedure

Part 3 Comparative Analysis of India and Germany
5.29 Comparative Review of EIA Systems
5.30 What Makes EIA Successful?
5.31 Difficulties of Cross-National Comparison
5.32 Legal Acceptance of EIA
5.33 Comparative Review
5.34 Dilution of Regulation in India
5.35 Environmental Catagorisation of Projects
5.36 Stages of EIA Process
5.37 Summing Up
Part 1 EIA for Expansion and Modification of Reliance Refinery Complex at Motikhavdi

6.1 Project Description
6.1.1 Need for Expansion
6.1.2 Scoping Studies
6.1.3 Debottlenecking
6.1.4 Capacity Expansion and Modernization
6.1.5 Advantage of the Expansion Project

6.2 The EIA Report
6.2.1 EIA Studies for the Refinery Complex
6.2.2 Scope of EIA
6.2.3 Methodology for EIA

6.3 Baseline Environmental Status
6.3.1 Air Environment
6.3.2 Noise Environment
6.3.3 Water Environment
6.3.4 Land Environment
6.3.5 The Baseline Status of Soil

6.4 The Waste and Waste Disposal
6.4.1 Saleable Non-Hazardous Solid Waste
6.4.2 The Hazardous Waste

6.5 Biological Environment
6.5.1 Study of Flora
6.5.2 Methodology Used
6.5.3 Main Species
6.5.4 Social Forestry
6.5.5 Reserved Forest
6.5.6 Floristic Structure and Composition
6.5.7 Medicinal Plants
6.5.8 Threatened Species
6.5.9 Mangrove Plantation by RIL
6.5.10 Vegetation in RIL Complex
6.5.11 Agriculture

6.6 Study of Fauna
   6.6.1 Domestic Animals and Birds
   6.6.2 Rare, Endangered and Vulnerable Species
   6.6.3 Butterflies and Insects

6.7 Socio-Economic Environment
   6.7.1 Background
   6.7.2 Demographic Structure
   6.7.3 Infrastructure Base

6.8 Facilities Provided by RIL
   6.8.1 Health and Medical Center
   6.8.2 Community Welfare Activities of RIL

6.9 Economic Attributes

6.10 Awareness and Opinion of the People about the Project

6.11 Prediction of the Impacts of the Project

6.12 Impact during Construction Phase
   6.12.1 Air Environment
   6.12.2 Noise Environment: Noise due to Construction Equipment
   6.12.3 Noise due to Transportation
   6.12.4 Water Environment
   6.12.5 Land Environment
   6.12.6 Biological Environment
   6.12.7 Socio-Economic Environment
   6.12.8 Impacts on Health and Safety

6.13 Impacts during Operation
   6.13.1 Acquisition of Raw Materials
   6.13.2 Emissions during Production
   6.13.3 Air Pollution due to Vehicular Movement
   6.13.4 Noise Environment

6.14 Environmental Management Plan
   6.14.1 RIL’s EMP
6.15 EMP during Construction Phase
   6.15.1 Site Preparation
   6.15.2 Air Environment
   6.15.3 Noise Environment
   6.15.4 Water Environment
   6.15.5 Land Environment
   6.15.6 Biological Environment
   6.15.7 Socio-Economic Environment
   6.15.8 Health and Safety

6.16 Environmental Management Plan during Operation
   6.16.1 Air Environment
   6.16.2 Noise Environment
   6.16.3 Water Environment
   6.16.4 Land Environment
   6.16.5 Biological Environment
   6.16.6 Socio-Economic Environment

6.17 Capital / Recurring Expenditure on Environmental Plan

6.18 Environment Monitoring in Refinery

6.19 The Organization Chart of the Environment Cell at Refinery

6.20 Some Areas of Concern
   6.20.1 The EIA Report is Comprehensive
   6.20.2 GPCB's Approval of the Earlier Project Implementation
   6.20.3 Expertise of the EIA Team
   6.20.4 Dependence on Contractors
   6.20.5 Employment Generation
   6.20.6 Corporate Social Responsibility (CSR)
   6.20.7 Inadequate Institutional Support
   6.20.8 Issues Raised By Civil Society organizations
   6.20.9 Concerns Expressed by Local People

6.21 Compliance Reports of the EIA

6.22 Summing Up
Part 2 EIA for Waste Water Treatment Plant in Germany

6.23 Introduction
6.24 Wastewater Treatment Plant Ruhleben, Berlin
6.25 Methodology of the Study
6.26 Wastewater and its Impact on Environment
6.27 Wastewater Management in Germany
   6.27.1 Water Quality in Germany
   6.27.2 Legal Aspects of Wastewater Treatment
   6.27.3 European Bathing Water Directive
   6.27.4 European Urban Wastewater Treatment Directive
   6.27.5 European Directive on Sewage Sludge
6.28 Legislation, Regulation and Operation in Germany
   6.28.1 Federal Water Management Act 1986
   6.28.2 Wastewater Charges Act 1994
   6.28.3 Water Quality Objectives and Standards in Germany
   6.28.4 Provisions for Sewage Sludge Disposal in Germany
6.29 Responsibility for wastewater management in Germany
6.30 EIA for Wastewater Treatment Plants
6.31 Authorization Procedures for Wastewater treatment Plant in Germany
6.32 Objectives and Characteristics of Wastewater Treatment Plants.
   6.32.1 Objectives of Wastewater Treatment
   6.32.2 Characteristics of Wastewater Treatment Plants
6.33 Capacity of wastewater treatment plant
   6.33.1 Design consideration for wastewater treatment plants
6.34 Environmental Effects of Wastewater Treatment Plants
   6.34.1 Effects on Water
   6.34.2 Effects on Air and Climate:
   6.34.3 Effects on Soil and Groundwater
   6.34.4 Effects on Landscape, Land-use and other Environmental Media
6.35 Avoidance and mitigation of negative effects
6.36 Post EIA Processes
6.37 Summing Up
Chapter 7
Concluding Observations

7.1 What Has the Study Accomplished?
7.2 Context of EIA
7.3 EIA Law and Legal Processes
7.4 EIA in EU and in Developing Countries
   7.4.1 EIA in European Union
   7.4.2 EIA in Developing Countries
   7.4.3 Comparison between EIA in Developed and Developing Countries
7.5 Legal Processes of EIA in India
   7.5.1 EIA Act in India
   7.5.2 Amendments in the EIA Notifications
   7.5.3 Amendment of December 2009
   7.5.4 Final Comment on EIA Act
7.6 Legal Processes of EIA in Germany
   7.6.1 Emergence of EIA Law in Germany
   7.6.2 Important Legal provisions
   7.6.3 Public Participation
7.7 Comparing the Legal Processes in India and Germany
7.8 EIA at Work: the Indian Case Study
   7.8.1 Sources of Data and Information
   7.8.2 The EIA Report
   7.8.3 Areas of Concern
7.9 EIA at Work: The German Case Study
   7.9.1 EIA for Wastewater Treatment Plants
   7.9.2 Sources of Data
   7.9.3 Main Observations of the Case Study
7.10 Lessons for India from the Comparative Analysis of EIA
     in India and Germany
7.11 Alternatives to EIA
7.12 Future Research Areas

Bibliography
