ACKNOWLEDGEMENT

I am greatly indebted to my guide, Professor M. N. Patel for the invaluable guidance, constructive comments, useful suggestions, and encouragement. These helped me to do justice to my challenging research topic within reasonable time.

I would like to express my appreciation to the University Grants Commission (Western Zone) for granting me study leave of three years to complete this assignment under "Teachers Fellowship".

I take great pleasure to express my profuse and sincere gratitude to Prin. B. M. Peerzada, Managing Trustee of Lok Jagruti Kendra. Rarely does one come across persons of his stature. He, not only offered guidance to me, but also gave complete freedom to experiment with my ideas. His faith in my capability and his thought provoking queries about the usefulness of the subject stimulated me to do better work with more concentration.

My gratefulness is to be expressed to Shri Manishbhai Shah, Trustee of Lok Jagruti Kendra, who has inspired me to complete my work with more enthusiasm.
I am grateful to Prin. C. P. Shah, R. J. Tibrewal Commerce College for initiating me into the world of research. His untiring efforts, combined with the efforts of Shri Kirtibhai Gandhi, Office Superintendent of the college where I teach and Shri Piyush Anandjiwala, Office Superintendent of Adivasi Arts and Commerce College, Santrampur helped me to obtain the Teacher Fellowship from the UGC for two year as well as an extension for one year.

I would like to extend my gratitude to the entire staff of department of Statistics, Gujarat University, Ahmedabad. Special thanks to Prof. (Dr.) R. G. Bhatt, Head of the Statistics department, for extending her co-operation and providing various facilities in the department. I am thankful to Prof. A. V. Gajjar, Ex-head of the department of Statistics, Gujarat University, for giving constructive suggestions on the subject matter.

Heartfelt thanks to all my colleagues, without whose support, the task wouldn’t have been accomplished. Special thanks to Dr. M. M. Desai, and Maitray Bhagat, for their co-operation. I would like to take this opportunity to express my gratitude to Dr. Chirag J. Trivedi for his constant inspiration and support. I am also highly thankful to
Prof. Manisha Shah and Prof. Shubha Nigam for giving their valuable time to go through the study from a language view-point.

Sincere thanks to Pranva Verma and Mehul Bhavsar for teaching me the nitty-gritty of computer programming. I also thank Devang for helping with the computer formatting.

I am deeply indebted to my mother, my late father, whose blessings are still with me, my brothers, my sister and my in-laws for their constant encouragement and inspiration.

This acknowledgement would be incomplete without mentioning the most cherished people - my wife Shital and daughters Aneri and Anokhi, who were always there, providing all the love, affection and emotional support needed. Their patience at critical moments and humour to lighten those moments, have helped me to sustain the ups and downs through the journey. This study would not have been possible without them. I dedicate this study to them.

Lastly, I place the onus of all shortcomings on myself.

Jayesh B. Shah
