Acknowledgement

Success is only tip of an iceberg, in bottom of which lies the dedication and efforts of many people. The moments are rare when you get the chance to look back and thank all those who have been at your side for years. Today I grab the opportunity to thank all of them.

My humble gratitude to my teacher and guide Prof. S. R. Dave, Head, Department of Microbiology, School of Sciences, Gujarat University, without whose able guidance, I could never have achieved this. An established microbiologist by himself, his comprehensive knowledge and devotion for his subject has taught me an entirely different way of analyzing things. He always took out time from his extremely busy routine to discuss the results, solve my difficulties and suggest newer options patiently and cheerfully. It was a lifetime opportunity for me to work with him.

I am very grateful to Dr. Devayani Tipre, lecturer, Department of Microbiology who has always helped me a lot with her valuable suggestions and loving assistance. She was a senior to look to in any difficulty and had gone many times out of her way to help me. She encouraged and helped me in every way and without her help it was impossible to prepare the manuscript in time, for which I will always be thankful.

I am also thankful to Prof. N. K. Yadav, Prof. Meenu Saraf, Dr. B. V. Patel and Dr. Nandita Baxi for their concern and cooperation throughout my research work in the department.

My heartfelt thanks to Dr S.B. Vora, General Manager, R&D, Gujarat Mineral Development Corporation, for his active interest in my research work and kind cooperation whenever I needed. I am thankful to GMDC for the project grant and fellowship and also to staff members for their cooperation.

I thank Prof. Dr. Y.K. Agrawal and Dr. Pranav Shrivastava, Dept. of Chemistry, Gujarat University, for their valuable suggestions for the chemical analysis during my research tenure.
I can not forget to thank Dr. Nasreen Haque, Neelam Tank, and other Ph.D. colleagues Kajal Gupta, Viral Bhatt, Rashmi Singh and all past and present M.Phil, M.Sc. students, who created a friendly work environment and working with them has always been a pleasure.

I thank non-teaching staff members of the department, Diptiben, Parikhbhai, Khandubhai, Dharamsinhbhai, Late Kanjibhai, and Arjun for their kind cooperation during my course of work in the department. I am also thankful to Ketanbhai, Prashantbhai and staff members of the work-shop, Gujarat University.

A great deal of motivation and strength came from my friends. I am thankful to Jay Bergi, Bhargavi Bergi, Manoj Pathak, Paresh Patel, Vipul Chauhan, Ajit Bergi, Dr. Harshit Bhatt, Sanjay Hirpara, Dr. Kamath, Chittranjan Dave, Vinay Patel, Pinakin Dhandhukia, Keyur Soni and Naresh Jain for their help and support.

How can I forget to thank Chhaganbhai and his cafe to provide constant energetic tonic (tea) and relax environment during research period.

I can not express my heartfelt gratitude in words towards my loving wife, Jalpa, who has always been on my side being a constant source of inspiration. Without her love, care and support it was not possible for me to complete my research work.

A very special vote of thanks to my elder brother Shri Rakeshbhai, Shitalbhabhi, Hetaldidi and Shri Jaiminkumar with their care, concern and great deal of support during my research work that I have been able to achieve my goal. Charming Namrata, Smit and Dhruvi also deserve a heartfelt appreciation for their love.

My parents have been my true strength and it is with their blessing and immense support, that I could complete my research work.

Last but not the least, I wish to thank my well-wishers, friends and all those who have helped me directly and indirectly in my work.

Ahmedabad
October 2005
