ACKNOWLEDGMENTS

It is indeed my proud privilege to work under the guidance of Dr. R. S. RAJA DURAI, Associate Professor, Department of Mathematics, JUIT, Wakhaghat. This work would not have been possible without his able guidance, constant support, constructive criticism and painstaking efforts. In spite of his very busy and hectic schedule, he always made it a point to see and ensure that every bit of the work was completed to its perfection. Working under his supervision has been an experience which imbedded in me a positive approach and taught me never to compromise on quality.

I would also like to extend my sincere thanks to Dr. Harinder Singh, Professor and Head, Department of Mathematics, JUIT, Wakhaghat and all faculty members of Department of Mathematics for providing me support and necessary guidance.

Specifically, I pay my humble gratitude to Dr. Yajulu Medury, Vice Chancellor, JUIT and COO (Jaypee Education System) and Brig. (Retd.) Balbir Singh, Director, JUIT for their constant encouragement, and support throughout this research endeavor.

I greatly acknowledge Prof. T. S. Lamba, Dean (Academic and Research), JUIT and DPMC members for closely monitoring and providing all necessary support to complete this work. I would also like to express my earnest gratitude to my parents, in laws and my friends for their constant support.

Finally, a special thanks to my husband Dr. Pradeep Kumar for his continuous encouragement, support and unconditional love.

- Meenakshi Devi
