

LIST OF PLATES

No		Page
Plate 1	Sampling site No.1 (Mullur, near Vizhinjam). The laterite rock formation serve as excellent substrata for <i>Sargassum wightii</i> along with brown mussel (<i>Perna indica</i>)	62
Plate 2	Sampling site No. 2 (Dhalavapuram, near Quilon). The sandy coast showing <i>Chaetomorpha linum</i> and <i>Gracilariopsis lemaneiformis</i> drifted ashore	62
Plate 3	Sampling site No 3 (Thirumallavaram, near Neendakara). The laterite rocks harbouring dense beds <i>Gracilaria corticata</i> and <i>Sargassum wightii</i>	69
Plate 4	Sampling site No 4 (Manassery, near Fort Kochi). The granite rock encrusted with <i>Chaetomorpha antennina</i> .	69
Plate 5	Sampling site No 5 (Chettikulam, near Calicut). The laterite rocks formation supports <i>Gracilaria corticata</i> . Seaweed sampling being carried out from one of the quadrates.	73
Plate 6	Sampling site No 6 (Thikkodi near Quilandi). The laterite coast showing <i>Gracilaria corticata</i> , <i>Chaetomorpha antennina</i> and <i>Hypnea valentiae</i> .	73
Plate 7	Sampling site No 7 (Dharmadom, near Thalasseri). The laterite rocks structures around the island are the seaweed growing areas..	78
Plate 8	Sampling site No 8 (Mopla Bay, near Kannur). The harbour area supports the growth of <i>Gracilariopsis lemaneiformis</i> .	78
Plate 9	Sampling site No.9 (Bekal, near Kasaragod). The laterite rocks formation supports good growth of <i>Hypnea musciformis</i> , <i>Gracilaria corticata</i> and <i>Acanthophora spicifera</i> .	83
Plate 10	Photograph of <i>Cladophora fascicularis</i> .	83
Plate 11	Rich bed of <i>Caulerpa peltata</i> at Thikkodi.	89
Plate 12	Photograph of <i>Enteromorpha intestinalis</i>	89
Plate 13	Photograph of <i>Ulva fasciata</i> .	91
Plate 14	Photograph of <i>Ulva lactuca</i>	91
Plate 15	Photograph of <i>Sargassum wightii</i>	93
Plate 16	Photograph of <i>Padina tetrastratica</i>	93
Plate 17	Photograph of <i>Stoechospermum marginatum</i> .	95
Plate 18	Photograph of <i>Gelidium pusillum</i>	95
Plate 19	Photograph of <i>Gelidiopsis variabilis</i>	97
Plate 20	Photograph of <i>Gracilariopsis lemaneiformis</i>	97
Plate 21	Photograph of <i>Acanthophora spicifera</i> .	99
Plate 22	Photograph of <i>Gracilaria corticata</i>	99

Plate 23	Photograph of <i>Gracilaria foliifera</i> .	101
Plate 24	Photograph of <i>Hypnea valentiae</i>	101
Plate 25	Photograph of <i>Grateloupia lithophila</i>	103
Plate 26	Photograph of <i>Grateloupia filicina</i>	103
Plate 27	Photograph of dense bed of <i>Ulva lactuca</i> at Chettikulam	139
Plate 28	Photograph showing thick bed of <i>Enteromorpha intestinalis</i> at Thikkodi.	139
Plate 29	Laterite rock supporting vegetation of <i>Caulerpa peltata</i> and <i>Centeroceros clavulatum</i> at Thikkodi.	141
Plate 30	Rich bed of <i>Sargassum wightii</i> and <i>Hypnea valentia</i> at Mullur	141
Plate 31	Rich bed of brown mussel bed (<i>Perna indica</i>) supporting rich bed of <i>Sargassum wightii</i> and <i>Asperogopsis taxiformis</i> at Mullur	149
