CONTENTS

CHAPTER - I
INTRODUCTION
i) General Idea 1
ii) Different kinds of pollution due to Thermal Power Stations 2
iii) Objectives of the present work 8

CHAPTER - II
STUDY SITE
i) Koradi Thermal Power Station 10
ii) Sarni Thermal Power Station 12

CHAPTER - III
MATERIAL AND METHODS
i) Sampling schedule and collection of samples 15
ii) Sample processing for metals 16
iii) Methods of chemical analysis of water, sediment and biota 18
iv) Calculation of percentage distribution 26
v) Statistical calculation 26

****
CHAPTER-IV

CHAPTER-V

OBSERVATION ON ABIOTIC COMPONENTS
(WATER & SEDIMENT)

OBSERVATION ON BIOTIC COMPONENTS

A) Aquatic macrophytes 45
B) Trace metals in vertebrates and invertebrates 66

CHAPTER-VI

DISCUSSION

i) Iron 71
ii) Manganese 77
iii) Copper 83
iv) Zinc 88
v) Nickel 93
vi) Cobalt 99
vii) Nitrogen 103
viii) Phosphorous 107
ix) Calcium 110
x) Magnesium 113
xi) Sodium 117
xii) Potassium 120
xiii) Water pH 123
xiv) Organic matter 124

SUMMARY
