ACKNOWLEDGEMENTS

I express my deep sense of gratitude and indebtedness to Dr. S.C. Agrawal, Ph.D., F.B.S., C.A.S.F. (U.K.), Reader, Department of Botany, University of Saugar, Sagar, under whose inspiring guidance and kind supervision this work was planned and completed.

I wish to express my sincere gratitude to Dr. G.P. Mishra, Professor & Head, Department of Botany, University of Saugar, Sagar for providing necessary research facilities.

I am grateful to Dr. P.C. Jain, Asstt. Prof., Department of Botany, University of Saugar, Sagar and Dr. K.V. Singh, Senior Scientific Assistant, Indian Drugs and Pharmaceutical Ltd., Hyderabad, for their timely help, suggestions and encouragement in carrying out this work.

The author wishes to record his sincere appreciation to Dr. P.M. Stockdale, C.M.I., Kew and Dr. L. Sigler, Mold Herbarium and Culture Collection, University of Alberta, Canada, for help in the identification of some of the fungal cultures.

I owe my gratefulness to the Indian Council of Medical Research, New Delhi, for having award of Junior Research Fellowship during the tenure of which these investigations were carried out.

Finally, I wish to thank my research colleagues for their help in various ways.
