Respectfully dedicated to my Beloved Grandparents
Acknowledgement

"Creativity is a complex process, whose outcome depends upon forces within the individual and outside". To increase this creative potential I was supported by some great personalities to whom I must be grateful.

I wish to express my sincere regards and deep sense of gratitude to my honourable guide Dr. K.M. Kulkarni, Joint Director, Higher education, Amravati Division, under whose guidance the present work has been carried out. I am indebted to him for his constant encouragement and intangible suggestions throughout the course of my study inspite of his multifarious academic and college pursuits. The present researcher has no hesitation to confess that without his keen interest this study would not have seen the light of the day.

I am also grateful to Dr. Mrs. Mangala Kulkarni and Malhar Pangrikar who helped to increase vastly the range and depth of the creativity. I am also grateful to Dr. V.S. Soitkar, Ex-principal, Government Institute of Science and humanities, Amravati.

I am quite overwhelmed while expressing my feelings towards my loving parents Shri. Rameshrao and Mrs. Aruna Chaudhari and my brothers Rahul & Ranjit for the motivation they have given in the completion of my long awaited dream.
I would like to express my gratitude to Mr. Suresh and Mrs. Charushila Kohale, Dr. Mrs. Usha Jagtap and Dr. Abhijit B. Wankhade, who have kindled my interest in completing this task.

I am also thankful to Prof. Santosh Pawar, Prof. I.A. Raja and Prof. Mrs. Zade for giving co-operation during this research project.

My colleagues Ms. Kirti Chakote, Ms. Archana Pawar and Mr. Praveen Joshi shared my enthusiasm. I also wish to thank, the librarian of P.K.V., Akola and G.I.S.H., Amravati for making available wide range of books and periodicals during my visits to the library.

Prof. Dr. Manekar, Mr. Bhosle and Mr. Kanaskar, technician, Electron Microscopy Division, Jaslok Hospital and Research Centre, Mumbai to whom I owe thanks for the shine they have given during electron microscopy study.

I am very much thankful to Mr. U.D. Tare for crystallizing my research thought and designing and shaping the manuscript with computer application.

Ms. R. R. Chaudhari

(Researcher)
