ACKNOWLEDGEMENT

Often words are too inadequate to serve as a mode of expression of one’s inner feelings, especially the sense of indebtedness and gratitude, yet I shall be failing in my duty if I do not formally offer my sincerest thanks and deep sense of gratitude to all those, who helped in one way or the other in the completion of this work.

In the first place, I must place on record a debt of gratitude to my esteemed and revered supervisor Professor Sukhwinder Singh, Centre for Research in Economic Change, Punjabi University, Patiala, whose intellectual stimulation, invaluable suggestions and personal involvement have enabled me to accomplish this work. He has given me untiring help, painstaking guidance and constant encouragement from the very inception of the work, without which this thesis could have never been completed. Most of all, I am very indebted to him for enriching me with all the computational skills related to research which I find as the most precious gift to me. It enabled me to overcome all the time consuming and exhausting exercises. In fact, working under his supervision is a matter of pride.

I am grateful to Dr. Ranjit Singh Ghuman, Professor and Head, Department of Economics, Punjabi University, Patiala for his timely assistance to me. My sincere thanks are due to all the faculty members of the Department of Economics, especially Professor Sucha Singh Gill (Rtd.), Professor Inderjit Singh, Professor Lakhwinder Singh, Professor Kesar Singh Bhangu and Dr. Jaswinder Singh Brar, Reader for their indispensable help. I also owe my thanks to Professor R. K. Mahajan, Punjabi University Regional Centre, Bathinda, Dr. Vinod Kumar and Dr. Manjit Sharma, Lecturers, DAV College, Chandigarh, and Jaspal Singh Romana, Lecturer in Economics, Village Chughe Kalan (Bathinda) for their invaluable suggestions and encouragements.

I am also immensely grateful to the staff and authorities of various educational institutions and libraries viz. Delhi University, Jawaharlal Nehru University, National Council for Applied Economic Research (NCAER), Institute of Economic Growth, all at New Delhi; Punjabi University, Patiala; Panjab University, Punjab Health System Corporation, Directorate of Health and Family Welfare, Economic and Statistical Organization, Punjab, and Punjab State Planning Board, all located at Chandigarh for rendering necessary research material and other facilities to me. I am also thankful to the non-
teaching staff of Department of Economics, Punjabi University, Patiala, for their extensive cooperation.

For the successful completion of my field work, my deepest thanks go to the Municipal Commissioners (MCs), Sarpanches, Panches and respondents of the eighteen villages and nine cities/towns who spared time to make me familiar with the information/data connected with this study. Their simple queries and pleadings helped me to crystallize many aspects of determinants of demand and supply conditions of health services. The findings of study, if implemented, will certainly improve their health conditions.

My sincerest thanks are also due to Dr. Balwant Singh, Dr. Ved Parkash Garg, Dr. Vivek Garg, Dr. Seema Garg, and Dr. Meenu Bansal for discussing various terms related to medical sciences. I extend my thanks to Dr. Surinder Singla, Assistant Professor, Centre for South & Central Asian Countries, Central University of Punjab, Bathinda and Mr. Ranjodh Singh, Research Scholar (Ph D.), Department of Economics, Punjabi University, Patiala for giving me useful suggestions and moral support throughout the study.

I find words inadequate to express my special thanks to Mr. Kamal Kumar, Senior Research Fellow, Department of Punjabi, Punjabi University, Patiala, for providing me enormous support and encouragement all through my research work. I would express my gratitude to my friends Abhishek Sharma, Kuldeep Garg, Ashish, Rishi Verma, Varun Verma, Kulwinder Singh, Dr. Baldev Singh, Nirvair Singh, Angrej Singh Gill, Rakesh Kumar, Sandeep Goyal, Amit Arora, and Shifali Jain for their immense moral support.

My acknowledgements would not be completed without a mention of my grandmother Smt. Shanti Devi Garg, my parents, Sh. Jugal Kishore Garg and Smt. Darshana Devi Garg, who are my pillars of strength and guiding light all through my life. I am greatly thankful to my brother Mr. Love Kumar Garg and my sister-in-law Mrs. Sonali Garg, who helped me a lot to reach at this stage of my life. My deep felt gratitude to my sister Mrs. Jolly Garg and brother-in-law Mr. Ravinder Garg for their immense support and encouragement during the research work. I would also like to thank my nephew Gitansh and nieces Anushi, Daakshi & Akshita for providing me some relaxing hours during the tiring research work. I extend my thanks to my Father-in-law & Mother-in-law for providing me continuous love, affection and encouragement during the research work.
“Somehow life becomes more meaningful because of special people who touch our hearts”. I am very grateful to my wife Mrs. Anju Garg, beloved daughter ‘Mannat’ and dear son ‘Bhavit’ for tolerating my absence during the field survey and other works related to the research. Last but not least, with limitless modest, I would like to thank the Almighty, who gave me strength to complete this research work successfully with patience and confidence even in so many adverse situations.

(Kush Kumar)
