LIST OF TABLES

Table 3.1 Item Analysis: Point Biserial Correlation Coefficient (Parental Pressure)
Table 3.2 Item Analysis: Point Biserial Correlation Coefficient (Special Stress Scale for Teenagers)
Table 5.1 Correlation Matrix: Relationship between Predictors Variables and Stress
Table 5.2 Correlation Matrix: Relationship between Predictors Variables and Coping
Table 5.3 Regression Analysis for Stress
Table 5.4 Multiple Regression Coefficient for Predictors of stress
Table 5.5 Regression Analysis for Coping
Table 5.6 Multiple Regression Coefficient for Predictors of Coping
Table 5.7 Mean, Stress at different levels of Food intake behavior
Table 5.8 Mean, Coping at different levels of Food intake behavior
Table 5.9 Mean, Stress at different levels of Control on Alcohol Consumption Behavior
Table 5.10 Mean, Coping at different levels of Control on Alcohol Consumption Behavior
Table 5.11 Mean, Stress at different levels of Physical Activity
Table 5.12 Mean, Coping at different levels of Physical Activity
Table 5.13 Mean, Stress at different levels of Sleeping Behavior
Table 5.14 Mean, Coping at different levels of Sleeping Behavior
Table 5.15 Mean, Stress at different levels of Spiritual Behavior
Table 5.16 Mean, Coping at different levels of Spiritual Behavior
Table 5.17 Mean, Stress at different levels of Parental Pressure
Table 5.18 Mean, Coping at different levels of Parental Pressure
Table 5.19 Mean, Stress at different levels of Peer Group Effect
Table 5.20  Mean, Coping at different levels of Peer Group Effect

Table 5.21  Mean, Stress at different levels of Family Social Support

Table 5.22  Mean, Stress at different levels of Family Social Support
