I pay my humble gratitude to my kind father who provided me the opportunity to gain the success despite several difficulties and problems and also inspiring me to complete the research work on "Reforms in the Norms of Selection procedure for Maharashtra State Senior Level Male Players in Handball Game". While doing so I was faced by several difficulties which he understood but never let me know. Due to his kindness I could undertake this task to establish my own identity in the society as well as I could see this auspicious world today. I bow down on his feet hundreds times.

Dr. Balwant Singh, who guided me while doing research for Ph.D. He had not only provided able guidance but whenever my knowledge became short or I faced any difficulties, he was always there with the available remedies all the time. I was inspired time to time by him. I will always remain in the debt of Dr. Balwant Singh, whose inspiration and guidance helped me to acquire my targets and complete my research. Since my childhood, I saw several ups and downs, which made me think constantly to find the solutions of the problems in life. This practice actually forced me individually to face any kind of crisis and overcome them by struggle. This had a severe impact during my primary school life and had keen interest in sports. I was very much interested in reading the biographies of various sports personalities and it became the subject of my keen interest. Today my interest in sports studies proved beneficial for undertaking this research work. I decided to complete the research work on "Reforms in the Norms of Selection procedure for Maharashtra State Senior Level Male Players in Handball Game" as no one else had undertaken the work to elaborate this subject so far. Those who had involved in the research on the related subject spread several misconceptions about this subject. I humbly wish to discard these misconceptions and therefore I have chosen this subject. Dr. Balwant Singh’s co-operation and guidance was of immense importance to me and proved very helpful in accomplishing this task.
Dr. Balwant Singh assisted me to accomplish the research with the developed writing skills. He was always taken the supportive stand to guide me during the situations whenever there were hurdles during the research.

Principal Rajaramji Rathod Sir and Nitinji Rathod Sir had always stood behind me in the ups and downs in my life. Dr. Chandrashekhar Gitte, Dr. Sunil Jadhav, Dr. Satyjeet Pagre, Dr. Pandurang Ranmal, Dr. Yatin Rane, Dr. Sameer Ambhre, Dr. Nilesh Bansod, Prof. Sanjay Satpute, Prof. Rajendra Shejul, Adv. Kamble, Adv. Kulkarni, C.A. Sachin Bora, Ajaysingh Rathod, Dr. Babasaheb Ambedkar university librarian Shri Bagul, Rajubhau Gaikwad, etc. extended me a kind co-operation. I would like to put a Hindi saying here, “Sou ke Lakadi ek ka boz”. Today I am experiencing that in a “knowledge of “Lakadi” (a piece of log) they have accumulated all the treasury of knowledge. The references collected for this research were available in Marathi.

Prof. B. N. Bangade has lion’s share to translate them into Hindi. This manuscript of Hindi was translated into English by Manish Nagesh Gajbhiye (Reporter, Lokmat Times, Aurangabad). I am highly in debt of Gajanan Surushe who computerized the manuscript done the DTP and Xerox works. Besides, I am in the debt of all those names were not mentioned here due to some unintended mistakes.
