LIST OF TABLES

Table No. | Page No.
---------|---------
2.1 Rainfall stations and their record periods | 48
2.2 Details of temperature records | 49
2.3 Correlation coefficients and lapse rates of P.E. for different seasons | 51
2.4 Moisture index limits and climatic types | 55
2.5 Thermal efficiency limits and climatic types | 55
2.6 Classification of runoff factors | 57
2.7 Climatological water balance computations for Trivandrum | 58
2.8 Variations in the hydrometeorological parameters for a change in field capacity | 60
4.1 Seasonal rainfall and percentage contribution to the annual | 93
4.2 Statistical parameters of rainfall of Kerala State | 95
4.3 Statistical parameters of Indian rainfall | 96
4.4 Statistical parameters of spatial distribution of mean rainfall of Kerala State | 97
4.5 Statistical parameters of spatial distribution of mean water deficit of Kerala State | 106
4.6 Statistical parameters of spatial distribution of mean water surplus of Kerala State | 109
4.7 Statistical details of spatial distribution of mean surface flow of Kerala State | 113
4.8 Statistical details of spatial distribution of mean underground flow of Kerala State | 116
4.9 Statistical details of spatial distribution of mean total discharge of Kerala State | 117
4.10 Annual and seasonal values of all water balance parameters for the State and their percentages | 118
5.1 Statistical details of trend analysis of rainfall series for selected stations 124
5.2 Statistical details of trend analysis of A.E series for selected stations 131
5.3 Statistical details of trend analysis of rainfall series for selected stations 137
5.4 Statistical details of trend analysis of rainfall series for selected stations 142
5.5 Significant trends in different parameters for all stations 145
5.6 Significant periodicities in annual rainfall series 148
5.7 Significant periodicities in annual A.E. series 151
5.8 Significant periodicities in annual water deficit series 154
5.9 Significant periodicities in annual water surplus series 157
5.10 Significant harmonics for different parameters 159
5.11 Periodicities observed for different parameters in annual and in the monsoon and post-monsoon seasons 160
