The research work presented in this thesis is under the able guidance and supervision of Dr. L. Godfrey, Reader, School of Pure and Applied Physics, Mahatma Gandhi University, Kottayam. With a deep sense of debt, I express my sincere gratitude to him for his inspiring and constant encouragement, without which the successful completion of this work would not have been possible.

The help and assistance received from the Director and all other teaching and non-teaching staff of School of Pure and Applied Physics, M.G. University is gratefully acknowledged.

I thank Dr. Jacob Philip, Professor, Department of Instrumentation, Cochin University of Science and Technology for providing necessary facilities to carry out part of this work.

I sincerely express my gratitude to my fellow research workers Sri A. Santhosh Kumar, Mrs. Leesan Iype, Dr. Cyriac Joseph of SPAP and Dr. Achamma Kurien of CUSAT for providing me a helping hand at times of need.

No words are adequate to express my gratitude to Dr. A.V. Alex, St. Paul's College, Kalamassery, Alwaye who assisted me in my research work.

I express my sincere thanks to the Principal, Manager, M.O.C. Secretary and all other teaching and non-teaching staff of Catholicate College, Pathanamthitta for the encouragement and constant support during the course of work.

I also thank Scientists of Sree Chithira Thirunal Institute for Medical Sciences and Technology Trivandrum, Regional Research Laboratory Trivandrum, CIFT Cochin, C-MAT Thrissur who rendered me assistance in my work.

Financial support received from the University Grants Commission in the form of teacher fellowship (TIP Scheme) is gratefully acknowledged.

This would not be complete unless I express my hearty gratitude to my Parents, wife Usha, ladies Paul and Jeevan whose unfailing support, understanding and patience have helped me a lot to overcome all difficulties during the tenure of this work.

Above all I owe my greatest debt of gratitude to God Almighty for taking the study

George Varughese
