ACKNOWLEDGEMENT

Firstly, I wish to thank my Research Guide, Dr. Bimlesh Kumar, Principal, J.T. Mahajan College of Engineering Faizpur, whose generous ideas and support during the past few years have been extremely valuable. He has taught me many valuable skills for my future research career and has provided useful guidance for completing this thesis.

I am indebted to the Government of India, Ministry of Defence (Defence Research and Development Organisation, DRDO), Vehicles Research and Development Estt. (VRDE), Ahamadnagar, Department of Chemical Technology North Maharashtra University Jalgaon, and Department of Mechanical Engineering, J.T. Mahajan College of Engineering Faizpur. Specifically, I wish to acknowledge Dr. S.G. Joshi, Dr. S. Mishra, Sachin Patil, Rohit More and Sanjay Jain for their roles that have made this possible.

Special thanks to Management and Prof. D.A.Warke Head of Mechanical Engineering Department, J.T.Mahajan College of Engineering Faizpur, for providing computing support and research lab during my thesis preparation. Many thanks to our group: R. D. Patil, M. M. Patil, R. V. Bhortake, B.D.Patil, Raman Patil and all my friends for their moral support, help and multiple suggestions for my research.

Generous help from Nikhil Patil and Ravi Warke in preparing the experimental set-up and apparatus used in my experiments is greatly appreciated. I would also like to thank the teaching and non teaching staff of Mechanical Engineering Department, J.T.Mahajan College of Engineering Faizpur for their support in many different ways.

At last but not least, I am most grateful to my parents, wife, my daughter Neha and son Dnyanesh for helping me not to be too much of an engineer.

Kishor Bhaskar Waghulde
