ACKNOWLEDGEMENT

I take this opportunity to express my sincere gratitude and indebtedness to my supervisor, Dr. A.P. Dubey, Director, Professor & Head, Department of Pediatrics, Maulana Azad Medical College, New Delhi for his valuable guidance, constant encouragement, support and affection during the period of my research and preparation of this thesis. To say that I express my sincere thanks to him would be akin to revealing the tip of the iceberg of respect and gratitude I have for him.

It is my proud privilege to show my gratitude and obligation to my esteemed co-supervisor, Dr. T.K. Mishra, Director, Professor, Department of Biochemistry, Maulana Azad Medical College, New Delhi. His keen interest in medical research, unhesitant helping attitude and ever encouraging nature shall remain vivid in my memory forever.

I consider myself fortunate to have Dr. Seema Kapoor, Professor and In charge, Pediatrics Research & Genetic Lab, Department of Pediatrics, Maulana Azad Medical College, New Delhi as my mentor. It was her invaluable suggestions, systematic approach, critical and constructive criticism that weaved perspective into my research. She helped me develop insight into the world of Pediatric research and taught me how to tackle complicated problems of scientific research. It would not be exaggeration to say that it was Dr. Seema who taught me the meaning of hard work. Words are not enough to express my sincere thanks to a wonderful teacher like her.

I extend my deep sense of thanks to my colleagues and friends Dr. Sunil Kumar Polipalli and Mrs. Madhavi, for extending their continuous help and cooperation during my research work.
I am thankful to my colleagues Mr. Avinash Lomash and Mr. Somesh Kumar for their continuous cooperation and support at every stage. I am greatly obliged to Esha for her constant support during formatting of thesis.

My sincere and heartfelt thanks to My Beloved God for his spiritual support to complete this thesis.

My heartfelt thanks go to my family. My entire work would not have been taken this final shape without the forbearance of my father Shri, Shri Prakash Pandey, mother Smt. Pramawati Pandey that has helped to successfully complete my doctoral research. It was their patience, inspiration, moral and emotional support and blessings that gave me strength and determination to complete this work. Finally, it is immensely difficult to adequately thank my family, brothers Dr. Sushil Kumar Pandey and Surya Prakash Pandey, sisters Rashmi and Priyanka.

I wish to express my heartfelt thanks to my wife Jaya has been extremely patient and unconditionally supportive. I consider myself extremely lucky for her to be a part of my life. I truly appreciate the sacrifices she has made for me, and I would like to thank her for always believing in me and encouraging me to do my best. Saanvi our little angel, you fill my world with strength, courage, and meaningful. Life would be miserable and not be complete without you.

Finally and certainly my deep sense of gratitude to all the patients and their parents without whose cooperation this study would not have been possible.

(Sanjeev Kumar Pandey)
