ACKNOWLEDGMENTS

My sincere thanks are due to Dr. T.V.V.G.R.K.Murty under whose guidance this work was carried out. I am indebted to him for all the engrossing interest, enthuasement and constructive suggestions and understanding cooperation which have come all-too-often and have gone a long way in making the present study.

The author expresses his profound thanks to Professor W.D.West, Director, Centre of Advanced Study in Geology, who gave an opportunity to work in the Centre, and also for taking the photomicrographs.

The thanks are also due to Dr. M.J.Fleuty, who kindly spent a few days with me in the field and gave very useful suggestions.

The author is grateful to Dr. B.L.Sharma of Rajasthan University, who spent some time in the field taking some of the photographs and also arranged the making of some excellent sections.

The financial assistance from the Council of Scientific and Industrial Research, New Delhi, and the Centre of Advanced Study in Geology, Sagar, in the form of a Junior Fellowship from the former and a Senior Fellowship from the latter is gratefully acknowledged.
