ACKNOWLEDGEMENTS

The author wishes to express her deep sense of gratitude to Professor and former Head of the Department Dr. R.S. Dube, Department of General and Applied Geography, Doctor Hari Singh Gour Vishwavidyalaya, Sagar (M.P.) her teacher and guide for his valuable guidance, supervision and constructive criticism throughout her work.

The author is thankful to Head, Department of General and Applied Geography, Dr. J.L. Jain for his valuable suggestions and help throughout this work.

She also thanks to all teachers of the Department, who always helped in the conduct of research work and their time-to-time suggestions and help in presenting this thesis.

I am very thankful to Dr. P.L. Soni, Prof. K. Choubey, Prof. S. Shukla, Prof. S.K. Sharma, Dr. C.K. Jain, Prof. R.P. Mishra and Dr. Shrivastri Sir, who were very helpful in suggesting the solution of different topics and their help in presenting this thesis.

Thanks are also due to Mr. M.K. Soni, Director, Geological Survey of India, Jabalpur (G.S.I.) who provided necessary map and data which were necessary to conduct this research.

Lastly she wishes to express her thanks to Shri H.S. Tripathi, Deputy Registrar of the University, for his encouragement & all the concerned officers who helped throughout the completion of research programme without any obstruction or delay.

I am also grateful to all my family members & friends who cordially helped me in successful completion of this research thesis.

I am very thankful to my friend Mr. Nadir, he has always helped and encouraged me in the completion of this work.

I wish to acknowledge Mr. Vipin Jain (Samta Informatics, University, Sagar) for his help in compilation of this thesis.
